~~SALFORD CITY COUNCIL :: PCC LOCAL NOMINATED WATCHDOG~~

TAMESIDE COUNCIL | SANDRA STEWART :: (MANAGING) PCC LOCAL NOMINATED WATCHDOG / COMPLAINT HANDLER

NOTES: LGO response in June 2024 stated that all possible channels of complaint resolution must be attempted before raising any complaint with them. I was eventually contacted by Miss/Mrs/Ms Sandra Stewart who is covering as Complaint Handler for GMP PCC.

I'm unhappy with the extensive delay in hearing from Mrs/Miss Stewart. I did not hear from her post for approximately 6 months. I then discover she is based at Tameside Council where at least one member of staff there has been evidently implicated in this 'witch hunt' conspiracy. I hope she has not been aparty to all this.

It's a matter of a very personal nature which understandably sees emotions, occasionally driven high.

Having said all that, informal apology goes to Sandra Stewart who I felt received particularly harsh criticism in recent correspondence and who for the benefit of doubt may not have played any sort of major role in this.

TAMESIDE COUNCIL :: STAGE 2

- d) *Received Stage 2 Final Response from Ilys Cooksen, the very person who is believed to have orchestrated the attacks that prompted the complaint in the first place.*
- e) *The response I received from Ilys Cooksen about Ilys Cooksen's conduct, was venomous.*
- f) *Now I see that Tameside Council/ people that work there are responsible for; attacking me and my partner over many years, furthering the slander when issues at the Jobcentre began developing, baring in mind the Jobcentre and Council Offices are in the same building, they pretty much share the same toilets and reception. I also find to my disappointment but not to my surprise that Miss/Mrs Stewart who was covering for Salford City Council as PCC Watchdog - who failed to respond to my messages for over 6 months - is also based at Tameside Council - this failure to respond to messages for 6 months plus is what has prevented the LGO from considering my complaint until now.*

I got an apology but not the right sort, they are claiming it was all an accident;

- accidentally receiving an accidental attachment of earnings order
- accidentally printed and posted the day before the target partners birthday.
- accidentally for two years on the trot.
- accidentally alongside the multiple multiple clear targetted attacks that have been carrying on since 2022.
