## Information - Evidentially Substantiate Corruption within GMCA and GMP

1 message

To: Jamie Buchanan <Jamie.Buchanan@gmp.police.uk>

Hi Sir,

Hi Mr Buchanan,

My name is Adam Moores. We spoke a few months back r.e X0127 and PC15744.

As you may recall, I have black and white evidence of corruption by GMP PSB Elizabeth Green and GMCA Dep Mayor Kate Green along with numerous other officials.

I raised a complaint with the Ombudsman in December 2023 concerning the conduct of one of the solicitors that evidently misrepresented me at MMC 25/03/22. The complaint was raised with primary aims of restoration.

A final response was received from the Ombudsman last week (late January 2024).

Having reviewed the contents of the response from the Solicitors Ombudsman, it's clear there has been another whitewash with the details of the response, if they could be called details, being very much inline with previous responses received from both GMP PSB and also the GMCA in that there is absolutely nothing of substance and every issue that was evidently laid out in the supporting documents/evidence folder being blatantly ignored.

I complained to the Solicitors Ombudsman in order to right the wrongs my solicitor committed against me at MMC 25/03/22. I targetted the Solicitors wrongdoings in order to avoid further dispute with GMP.

The response from the Solicitors Ombudsman is very much inline with previous responses received from GMP PSB and the GMCA which demonstrates a clear pattern of ignorance to the subject and instead directs its attention towards alledged wrongdoings on my part that have no place in such a document and completely irrelevant to the the scope of the documents remit. The response, much like the previous responses from GMP PSB and GMCA, places much emphasis on allegations relating to my previous conduct which are first and foremost, allegations and secondly, clear in their intent to draw my character in a negative light and thirdly and likely the most important point, to take the focus away from the issues i raised and the Black and White evidence in the Supporting Documents folder that accompanied the complaints covering letter.

I strongly suspect moreover i have it, that the decision making process at the Solicitors Ombudsman in relation to my case has been improperly and unlawfully influenced.

The complaint to the Solicitors Ombudsman was raised in order to avoid any further contention between myself, GMP, GMP-PSB or the GMCA.

Having taken the short straw as a strategic measure on account of the above, i then come to realise that yet more improper, indecent and unlawful tampering with someone's personal life has clearly been carried out.

The origin and motive for this improper influence leads back to GMCA's Ms Kate Green, this notion underpinned with an understanding of the rank an individual would need to possess in order to become aware and proactively influence such decision before it has been published.

1. who would want to do this
2. why would they want to do this
3. what credentials would a person need in order to be able to influence such a decision.
4. what credentials would a person need in order to become aware that there was a decision making process taking place prior to its publication.

Following receipt of the final response from the Solicitors Ombudsman, some 48 hours later, I attended an appointment organised through the local jobcentre that took place at Orient House, Hyde, Cheshire. Within moments of sitting at the table to discuss 'self-employment matters', I was immediately subjected to a number of antagonising questions delivered in a scolding manner by the lady that runs the self-employment advice service (a private company that the jobcentre outsources to).

Following a good 4-minute strong rant about Ms Kate Green and her inadequacies, it seems the staged event took a different turn to its intended course.

Ill get to the point, so these people tried to set me up once again but it goes skew-wiff for them because they are top to bottom corrupt and quite frankly their ability to carry out their misconduct and mindless corruption I find comically lacklustre, if you could let Ms Kate Green know that she has been categorically turned over **by the book** by none other than a council estate builder and also let her know that her relative at GMP PSB is just as useless. Not only are they useless they are also outright criminals.

Regardless of the legal situation, i think its important to note the nature of their conduct and what they have been doing to someone. The levels of destruction and attack they have subjected someone to over such an extended period of time in the most disproportionate circumstances i find utterly disgusting. They carry out their attacks in ways that render their target both unaware and unable to defend themselves, they 'build walls' around their target brick by brick, person by person, so that every part of that persons life has been completely infiltrated and turned. Their strategy? i take my hat off to its ability in achieving its ends. Their willing and ableness to employ such strategy? Unacceptable.

Quite frankly, these women are the most horrendous bullies i have ever had the displeasure of coming into contact with. I also think its worth noting that Miss Elizabeth Green some 14+ months ago was mocking me in the automated response that i received in December 2022, this after nearly 3 months without a reply from her or the GMP PSB department. She, was, laughing, at, me.

They rob me for no less than £18,000.00 vehicle stock, they peddle the notion i am a sexual predator and proactively peddle this slander, this foremost damaging and destructive, dangerous slander through their social media accounts. They interfere with my court hearing and have me jailed where they also spread misinformation that sees an attempt made by the wing alpha to label me a stalker which is no less than attempted murder in its alternative form. It goes on and on and on. I spend days, weeks, months and now years fighting for the most, THEE MOST basic levels of justice. I cannot find a single person within the GMP, GMP-PSB, IOPC, GMCA, NPS, HMCTS, MoJ that has the wherewithal to recognise what this is and that these utterly corrupt individuals are not only running a ruckus through their morally bankrupt actions and brazen remiss in their public duty. They have turned the apparatus of local authority into a club for murderers, thieves and liars, and so now it must be taken to the public. As Ms Kate Green pointed out in her official response, "take it up with the courts if you have an issue", why would i bother coming to her playground so she can turn the whole thing into another joke. I am going to the public. Fair is fair.

As someone who has had his house burgled multiple times off drug addicts and the likes and a person that has been robbed in the street as a young man and a person that ran a business for

nearly 10+ years and never missing a single wage payment for his lads, i can tell you with absolute confidence that these people are far more dangerous than any pilfering drug addict, they are the most dangerous and immoral people i have ever come across. I am absolutely certain of the nature of these people and there is no place for their dishonesty and fiendish nature in such an organisation.

And so as it stands, i have 'Black and White' evidence in support of my claims that these people are corrupt and have proactively corrupted the legal process i was subject to.

Altogether, the evidence in the Supporting Documents completes a picture of systemic corruption.

Some people are corrupt for financial gain, some people are corrupt in order to gain a personal edge for self-enrichment. We then have the most dangerous and indecent sorts of corruption, one with aims of mindless destruction against another person, from which they would see very little gain other than kudos amongst their inner circle of peers.

-

So these people, politicians, professional standards branch officials, GMP officers, local council officials, 90+ percent of them women. They have targetted me based on misidentification by two outrageously inept and corrupt, indecent and perverse Road Traffic Police Officers of GMP.

Some three years later, nothing has been returned, these people still attack me, they interfered with my local jobcentre which saw payments stopped for nearly a quarter of a year they have sowed decent at my social housing which saw my housing officer covertly apply for an eviction whilst proactively hiding it from me and ignoring my attempts at contact.

The most recent episode of out right perversion of justice demonstrated by these over-entitled egalitarian neo-liberal fascists saw three months without a payment from the Jobcentre. When i raised the issue with personnel at the DWP, the operatives that saw my account tampered with at the local jobcenter attempted to lie about it numerous times before eventually admitting that i had received £5 each month since November (but apparently i wasn't sanctioned). It also then transpired how they had double booked me to be in two places at once then 2 months on the trot cancelled the appointment that sees a payment released, 24 hours before the appointment was due to take place.

This created a cash flow issue which saw the internet connection to my home disconnected. I have attempted to resolve the issue with BT (my ISP) but the amount required to reinstate services (£440.00) is beyond my ability pay. The side effect of that has rendered the last 12 months of personal efforts made to rebuild and bring a wage in, fruitless.

It was following the publication of an update video for the Jobcenter, to show them what i have been doing to obtain gainful employment, that had me realise i was checkmated once again through, once again, corruption of local government.

I need a cable based internet connection in order to host the services i intend on providing to customers as part of my business plan.

I am sending this message through a cellular mobile phone connection that is just about manageable for end-user connectivity. It does not have the capacity to host a web based service.

And so here we have it. They have been scratching my eyes out for three years now and have once again succeeded in destroying my opportunities to rebuild from their destruction of my life. They have succeeded in keeping me in a position that enables them to further exploit and undermine me and continue the continued degradation of living conditions.

They have top to bottom soiled their professions in the most disgusting immoral and improper way. These people have managed to brick by brick, produce a situation with an outcome far worse than any burglary or street robbery i have ever been subject to.

They used the trust placed in them in order to gain access to me, my life, and my belongings which they have either stolen, destroyed or tampered with. There is no higher category of offence that these people have not committed, again and again over such an extended period of time that i firmly believe they had primary aims of personally humiliating me and now since i have somewhat successfully defended myself and through that, levels of insolence that they cannot withstand. I now firmly believe their aims to be nothing short of my complete and utter destruction.

If someone comes to your home for months and months and now years and years, steals all your cars, smashes your work van up, hacks your business account and deletes your history, sows decent such that person is made homeless, then interferes with the jobcenter payments that were sought as a result of their theft of life changing value and the stress induced by their non-stop cloak and dagger disgusting hidden attacks and then stalking me non stop NON STOP. These women should be in jail. They have abused their position in the most foul and monumental fashion.

I have been sat in my house now for nearly three years waiting for an answer to a situation that is completely transparent. Instead, these murderers and bullies and pantomime experts are free to continue their 'innocuous' campaign unabated.

Back in December 2021 when i discovered their 6 months smear campaign, the substance of which being subject to no residence and without doubt the most destructive and dangerous type of personal attack anyone can launch against someone and by people in position of trust and authority. I just about managed to smash their scruffy murderous walls that they built around me to pieces.

They now know they were wrong about the claims they were making about me. Instead they continue their attacks. This is the evidence that proves their motive is entirely egotistical. The whole thing, is based on EGO. Do not let these people run away with the game on the back of what? What exactly?

| So the response from the Solicitors Ombudsman is yet another white wash.

I ask you as a police officer, can i trust you to do your job, can i trust you to be a good person, can i trust you and your commanding officers to not succumb to office politics when a matter surrounding the very core of a persons being has been under such intense and indecent and illegal levels of attack for so long and by people that draw from the public fund and use its power against the public for their own short sighted agendas?

-  
|

These people, are trying to kill me.

They have been trying to kill me for **THREE YEARS.**

I ask myself; "When is someone going to put a stop to these thieving perverts and return what they stole?"

-

So now, I realise i cant even get a payout from the solicitor after their black and white stitch up, why? Because someone within your organisation likely Ms Kate Green and her 'pals' would rather

see me suffer further. What is going on Mr Buchanan? Please tell me because as it stands all i see is murderers and thieves getting away with murder and theft and carried out by the very people appointed to stop this kind of thing. It is understood that Ms Kate Green was a court Judge in one of her previous employed roles. She knows very well what she is doing. She is the most culpable of all her coconspirators.

I am coming to town in the next few days to publicly protest outside the numerous buildings that these thieves and perverts reside within.

Somebody has to stop these people. I have the tools to do it. I am coming to sort them out.

I understand that your career is very important and that maintaining rank within your organisation is paramount however there comes a time and a place where enough is enough and i hope you see this for what it is and do the right thing. *What sort of world do you want to live in?*

So my intentions, which i am preparing for this very minute, are to raise the issue such it cannot be ignored and we shall let the public decide what their view of this matter.

I have attached the evidence and covering letter that i sent to the Solicitors Ombudsman. Too many bad people getting away with bad things. Not on my watch. Hopefully not on your either.

| Please evaluate the contents of the attached folder.

I have it that the evidence in the Supporting Documents folder demonstrates with absolute certainty, 100% undoubtable, corruption.

Revaluation of the evidence has me in complete confidence that there is not a single element of my claim that isn't evidently and substantiated underpinned.

I have them.

By the book.

They are a liability to your organisation and a danger to the public.

Im coming to make a public song and dance about it and i will work my way around each building and turn it into a pantomime just like these wronguns did to me. The woman at Tameside Council is lucky that her position in the hierarchy of offenders is subordinate and that her building is not ideally geographically located amongst the others that Ms Kate Green and other public officials of importance reside. She has some extra time but i am coming for her job. She has played her part in an immoral campaign of terror against me and my family (see evidence folder - there is more - will update evidence folder in due course) that is no less than a mindless witchhunt. She will be held to account for her actions.

There will be no further corrupting, staining, tampering or destruction of their target or the system they have managed to hijack. I hope you support me in these ends or at the very least allow me to conduct my intended action without interference.

I am coming to see to it that they are put out to grass.

Best Regards,

Adam Moores

*p.s. Since this issue began. I have said things and behaved in ways that are not inline with what is to be expected of a respectable person. I can only apologise for any previous episodes of improper conduct. I was involved in a very serious parachuting accident about 8 months before this issue began. I sustained life threatening injuries which required facial reconstruction and zygotic implants on the left half of my face i also needed cranial restructuring. The damage was immense and i was very lucky to survive. I look back and see how it adversely affected my behaviour, i had barely been out of the house 6 weeks before meeting the woman at the centre of this issue that claimed i was stalking her. I have never been aparty to self-sabotage until then. Before the accident there were no issues, 12 months after the accident i had been robbed of substantial asset value, i was being stalked at home, my character was being assassinated on a countywide scale through social media and claims that were completely false being peddled about me.*

*They targetted me because they thought i was easy pickings. At the time, that perception may have been true. I've had opportunity to recover and i see things in a much clearer light. My self control has, for the best part, returned.*

*Now i am coming for **answers**.*

-

The attached '**PRINT-CAREER-BUSTER-1**' and '**PRINT-CAREER-BUSTER-2**' documents are draft publications and subject to alteration before final print later. I have printers ready and laser paper rolls ready. I will have 1000+ of these in-hand by 6am tomorrow morning. I am coming to town to print and stick people down the pan where they belong. I am doing this because they have been trying to murder me for 3 years and my life is in ruins through their devilish antics.
