Hi,

My name is Adam Moores. I am 35 years of age, i was born in Manchester and have lived the entirety of my life happily residing in the borough of Tameside. I am founder and director of a specialist Masonry Restoration company called Tameside Pointing that I have owned and operated since 2011.

I'm contacting you today regarding the conduct of one of the senior members of the GMCA committee and what has now developed into a situation where i feel i am fighting for my life though before i continue, i ask with the greatest of respect and my utmost appreciation, if you may momentarily extend me your patience and understanding as some of the information in the following paragraphs, i understand may be quite alarming and distressing to some readers.

I make the assurance that every effort will be made to avoid causing any kind of distress or unsettling feelings; however the nature of the matter I bring to you is one that is understood as being somewhat controversial in its nature. I have done my best to soften/'sugar-coat' the information without losing its principle underlying message.

-

I have been under intense attack for nearly three years now after i was wrongly accused and labelled a stalker by a young woman who failed to disclose the allegations she was later revealed to have been peddling about me and alongside her friend and her friends Mother who works for GMP as a Road Traffic Officer, and the friend's Mother's work colleague who is also a Road Traffic Officer of GMP, i was instead subjected to an extremely indecent and damaging, subversive cloak and dagger campaign of character assassination.

Nearly three years ago now in August 2021, I was defrauded out of two vehicles at approximate value of £18,000.00. Around six months after the 'theft' of the two vehicles in separate incidents, the two GMP Road Traffic Officers continued to target and stalk me and following the unlawful dispossession of the two vehicles they were also discovered to have divulged/shared my home address with an untold number of their friends and associates alongside their peddling of slander and false accusation about me.

I caught the female Road Traffic Officer 'red handed' outside my home in December of 2021, some 3+ months after the two vehicles were taken from me. The female Road Traffic Officer was in the front passenger seat of her daughter's car, a Silver Ford Fiesta.

The Officer was wearing a full uniform and on her radio. The female officers Daughter was in the driving seat, with the driver being the very same person and very same vehicle i witnessed on more than one occasion many months prior instead with the young woman that was later revealed as wrongly claiming i was a stalker and peddling that false accusation, in the front passenger of that very same Silver Ford Fiesta and same driver, the female Road Traffic Officers Daughter.

-

Soon after catching the female road traffic officer outside my home address in early December 2021, I soon after established a connection between what was at the time, a rapidly growing number of exceptionally unsettling and disturbing events that were rapidly increasing in frequency. I connected the numbering dots and eventually came to the realisation i had been made the target of a countywide campaign of slander and character assassination, one at the time believed and now that is certain as being firmly understood as peddled by the two young woman and the two road traffic officers and one conducted in a manner breathtaking in scale and this based on the overwhelming number of incidents that one after another, formed a compelling picture.

I realised I had been labelled a stalker 'on the sly'. Both my cars had been stolen by the Officers. They were now out to complete their utter destruction of a person as seen in the clear focusing of their attention on me where I witnessed them nearly every day between October and December 2021 'thrashing' up and down the main road outside my home address, pulling over anything that moved on wheels.

It was extremely unsettling. I recognised the severity of the situation and I was forced to act in my defence. This saw the officers and people connected to them (more officers) connected to the stolen vehicles, suspended. I was immediately subject to an intense and frenzied campaign of harassment and intimidation by the Officers and other personnel connected to the Road Traffic Officers that were connected to the stolen vehicles.

-

What originally began as 4 belligerent individuals back in 2021 has over the course of the last 2 years and 8 or so months extended itself to what now amounts to as a sizeable group of people numbering upwards of 30+, many of who're employed in positions of trust as members of local authority and some holding seats of power in local government. This also includes a sizable number of young men who're not Police Officers nor politicians or members of local authority that are known to be connected to the two young women at the center of this issue, and who I have personally witnessed outside my home on numerous occasions. I was forced to contend with many of these young men in exceptionally disproportionate and dangerous circumstances.

I have not been able to call on any friends or family throughout the entirety of this issue due to the extremely concerning nature and M.O of the two road traffic officers that i felt would weaponize any mobilization of such defense in order to further antagonise the situation and push their hyper-aggressive agenda. I am all to aware of the danger posed in exposing anyone to these people as has been confirmed to me in the last 6 months after two years of intense attack, where they have since discovered people connected to me personally and soon after were discovered to have refocused their attacks on these people who're personally connected to me and are completely innocent in this situation.

-

The main reason I'm contacting you today - is a plea for assistance.

-

Last month and then again this week, my home was subject to a warrantless forced entry by Officers of Greater Manchester Police. This action is understood to have been directed by GM Crime Commissioner Ms Kate Green as part of an orchestrated attempt to silence/intimidate me and remove my access to potentially damaging information and evidence that supports the allegations of the many wrongdoings carried out by people connected to Ms Kate Green.

This forced entry was carried out in circumstances that I firmly believe were unlawful, improper and tantamount to what I can only describe as political tyranny/oppression.

Ms Kate Green is understood to be related to Miss Elizabeth Green at Greater Manchester Police's Professional Standards Branch. The very same Miss Elizabeth Green that was tasked with handling a complaint i raised regarding the above issues, that i submitted to the IOPC back in September 2022. Miss Elizabeth Green is understood to be a friend/associate of the two road traffic officers. Miss Elizabeth Green was 'kicked off the job' in December 2022 for failing to respond to me for nearly three months, where she instead closed her desk for Christmas and left an automated response that was clear in its intent to mock me.

Following is a link to a Google Drive Documents folder which contains a full report and substantial evidence underpinning the above and many further and much more serious issues and incidents connected to this situation.

I ask if you could take a moment to explore the Documents in the following link. The documents and report in the following Google Drive files store substantiates the allegations of misconduct involving Ms Kate Green, Ms Kate Greens relative - Miss Elizabeth Green of GMP PSB, the two Road Traffic Police Officers and the many numerous co-conspirators that have been evidently implicated throughout the last 2 and a half year plus campaign of terror they have conducted.

I am not what these people are making me out to be. I make every assurance that I have done absolutely all that I can in order to bring about some kind of peace and amicable resolution with these people; however, at each and every stage I have been subject to nothing but attacks. Please let me make it very clear, not one, single, proposal or gesture of peace has been seen from these people, that includes the latest issues/developments which was seen Ms Kate Green evidently implicated in one a long line/series of 'assassins' who've personally demonstrated a commitment to seeing my name, reputation, financial and personal security, utterly destroyed.

Ms K Green now has a vested interest in seeing my destruction realised. Certain dynamics related to recent developments regarding this issue are understood to have raised Ms Kate Greens awareness of her evident implication in this issue and on the 20th February and then again on the 19th March this year (2024), when my home was subject to an unlawful forced entry, all my communication devices were seized i was arrested in exceptionally questionable circumstances.

I recognise that she has fully explored and exhausted every option and opportunity to have me incarcerated since this issue once again became critical and this, understood to be undertaken as a means of preventing her own wrongdoings and connection to this issue, coming to light.

I am extremely worried. I believe this woman is exploring every possible option whether lawful or not in order to have me arrested and bring about my silence, remove my access to/destroy evidence and the tools needed to expose her and her co-conspirators' campaign of terror and attack against me over the last 2 and a half years.

-

I hope you find this information in the correct light. I have been very critical of all details that have been included in the report and unless strongly suspected or known to be true, it does not get mentioned.

Please visit the following link and also consider downloading the evidence. I firmly believe Ms K Green is exploring every possible option in order to remove/destroy the evidence and anyones access to it. She has taken my phones and my computers but I was able to immediately act to secure the accounts following my release on bail 21-02-24.

-

I cannot ring 101 - phone put down on me twice last month

I cannot ring 999 - phone put down on me last year

I cannot get a solicitor - the law society are completely blanking me understood to be the work of Ms K Green and her influence which has seeped into every facet of the legal system both local and nationally it appears.

I have been charged with harassment - for walking into AUL Police Station once, after having the phone put down on me twice in a row by two separate female 101 call handlers.
