Hi,

Thanks for messaging me I just picked this up.

Not sure what happened there, I did email in on the Friday morning but I just checked and for some reason the reply I sent was returned as an error (I just pressed the reply button in response to email received from this address, who knows).

Not to worry. I will copy and paste in the email but before I do that, will very quickly mention I haven't seen the email since I sent it Friday morning and I was a bit stressed, hope this is received in the right light.

Please note:

"It's really not what I wanted but I have no choice if I am to defend myself"

Email sent Friday follows:

-----  
Hi PCCJF Team,

Thanks for contacting me and apologies for not getting back to you sooner.

The reason I've messaged is in relation to a number of issues that have been ongoing for nearly three years now.

I have been battling a cloak and dagger, campaign of of character assassination that now spans multiple counties stemming from a personal grievance that has developed between myself and what was originally two road traffic police officers, one of the officers daughters and one of the officers daughters' friends.

Nearly three years ago now, what began as nothing more than clear incompatibility between a man and a woman that swapped numbers ina shop would later mutate into a witch-hunt which would see me attacked to unprecedented levels.

The female officers daughter has a friend called Miss Durnford. It transpired some 6+ months after last speaking to Miss Durnford that alongside her friend and the two officers, she had mistakenly identified me as some kind of stalker/predator.

Despite multiple opportunities for the two officers to challenge me on their suspicions or at the very least, allow me to defend myself, they instead see to it this information was kept hidden from me.

Instead of giving me the opportunity to respond to their accusations, they instead embarked on a smear campaign peddling false slander of foremost most dangerous and indecent sort.

They actively conspired in preventing me becoming aware of any issues and from around May 2021 until discovering their subversive campaign in December

later that year when I caught one of the officers in her daughter's car, stalking me outside my home.

The whole thing is very dark and very macabre.

-

In the months prior to catching PC15744 Garside in her Daughter's Silver Ford Fiesta stalking me outside my home address, PC15744 GARSIDE and her Road Traffic Officer colleague X0127 MOORHOUSE had by this point seized two motor vehicles from me and using their personal inside connections within the force, they conspired with GMP Officer PC8820 Bateson who manipulated the process and prevented recovery of the two vehicles with a combined value of approx. £18,000.00 being 'stolen'. later I would discover they had already completely violated my public image/reputation in the most perverse and murderous way. By January 2022, I had discovered the vicious plot, mounted a defence which saw the officers involved suspended and soon after found myself locked in a personal hidden battle with life changing dynamics.

The situation was a battle of life or death.

This was just the beginning. I would later be railroaded I to a jail cell through evident coercion of my defence solicitor through proactive efforts made by a certain Miss A Dean of the National Probation Service who installed herself at hearing in March 2022 at MMC, submitted an extremely biased, damaging and personally insulting report on behalf of the NPS and through her determined efforts, realised the complete and utter dismantling of my defence and undermine of the entire hearing.

Miss White deliberated entirely to my discredit and did a better job of attacking me than the prosecution. I was committed to an immediate custodial sentence, my first and only ever custodial sentence and ultimately, convicted in malice.

Moments after becoming captive/resident at HMP Forrest Bank, I was soon targeted again with yet more hidden attacks and subversive slander carried out in similar M.O through people connected to the officers daughter that were inmates at the jail. This also included the 'wing alpha'. The situation was extremely dangerous and was something I had to face alone against a sizeable group of these inmates. I was able to defend myself, just.

I have collected evidence to substantiate my claims and the above is simply an introduction.

The main protagonists at the center of this issue are;

- Male GMP Road Traffic Officer - X0127 MOORHOUSE
- Female GMP Road Traffic Officer - PC15744 GARSIDE
- PC15744 GARSIDE's Daughter a.k.a Garside Jnr.
- Garside Jnr's friend, Miss Lydia Durnford.

The reason I'm contacting is because recent developments have seen an evidential link established between Miss Kate Green and the officers at the center of the issues mentioned.

The evidence in the supporting documents folder links Miss Kate Green to a certain GMP Professional Standards Branch Officer Miss Elizabeth Green, who was tasked with handling a complaint I raised regarding issues mentioned, and who was later kicked off the job for failing to respond to multiple requests for an update and then later mocking me in an automated response after closing her desk for Christmas in December 2022.

Basically, the entire chain and complaints process was hijacked. Nearly every aspect of every issue both whether handled at personal or professional levels that is related to the officers has been tampered with underlined, corrupted or smeared in the most indecent and destructive manner.

I recently received a response from the solicitors ombudsman that marked 2 and a half years of tamper and fraud. The evidence presented to the solicitors ombudsman implicated the Deputy Mayor Miss Kate Green as one in a long line of officials that have evidently stitched me up. Miss K Green was not the target of that complaint however through the overwhelming pieces of evidence in support of the idea, it appears Miss K Green became aware of this complaint, likely through the 10+ years of her time spent as a serving judge and the professional links established in that time, she has gotten wind of this complaint, railroaded it like everything else that so far represents a perfect record of corrupt officials then tried to set me up two days later at a self employment session arranged through the jobcenter.

That was just the other week, then yesterday I received a bill for over £6,000.00 from GM Collection that has somehow managed to increase in value in the last 18 months despite having an attachment to income that has seen a substantial percentage of social welfare deducted since it was proactively applied to my account since becoming targeted victims of the officers making me so unwell I could not work, spent what little money I had on no cars to sell since they were stolen.

Also yesterday, I received information that four police officers visited my mother's house looking for me. Then my neighbours tell me there were officers banging on my door the same day.

I am being targeted by Deputy Mayor Miss Green. She is using her access to public office, her inside political connections and is now trying to have me arrested before I raise the issue.

She is trying to silence me, I need your help.

The officers at the center of this issue are now aware I am not any sort of stalker and instead end on making good on their wrongdoings or at the very least to leave me alone, they have carried on and on and on.

They have brought absolutely everyone they can into this situation that has seen absolutely every facet of my life invaded.

Words honestly fail me and very difficult to find a place to start.

Please see the evidence folders which can be found at;

[tinyurl.com/moores-complaint](https://www.tinyurl.com/moores-complaint)

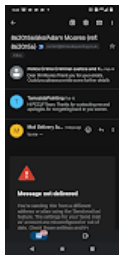

This issue is so far reaching and represents a breach of an untold number of models of decency let alone the basic principles of a person's right to life.

I need to come in and speak to someone who has to the power to stop this woman.

Regards,

Adam Moores

Hi,

Yes I came in Friday as I was very concerned about the situation in that moment.

I had officers banging at my door from Wednesday up to Saturday night when the final attempt to coax me out of my ivory tower was by two female officers in plain clothes and white 'going out trainers' on.

Didn't quite know what was going on when the two woman buzzed on Saturday but then I saw them jump into the front of a marked police van but your average, more like a builders van with no windows on the side, high rooftop etc.. and I suspect, inline with other events that have unfolded lately, I was due for a good kidnapping and hiding but of course that's purely speculation from my point of view!

I wanted to mention (and before I say anymore I don't want them disciplined or trouble for them through this) I just had the phone put down on me for the second time today by a female officer and I am as good as convinced that my name has been absolutely brutalised by PC15744 Garside.

I want you to know I did absolutely everything I could to make it right with these people and they did nothing but attack me, rob me of two vehicles approx. £18k theft tell everyone where I live and that I'm a stalker. They have really stressed me out it's been nearly three years, please please do not ignore what I am saying now because it is unbelievably important. I need to emphasise the conduct of the two officers they have created something so horrendous and destructive it's wrecked everyone's lives I could stop them peddling their false accusations they have driven the whole thing not a single, not, one, single, offer of peace, or gesture to resolve the situation I am absolutely spent where that one's concerned and given were now three years down the line and they don't stop/still attacking me I am totally convinced they are doing it for some sort of kick or because they need to feel they have won and their pride won't let it stop.

Really not a great write up, struggling to find the words here.

I promise you, whoever you are, with everything that I am I would never ever talk someone or prey on someone I absolutely would not do anything like that ever, ever.

I haven't been given a chance to respond or even defend myself I've had a small contingent of officers from AUL looking to get hold of me and not a shred of paperwork from any of their visits it's all very personal and it's them officers that just stop even after everything that's gone on...

I really don't like talking like this but I think has to be said and I mean this, they are exceptionally dangerous people, I sense they have been peicing/stitching selective pieces of information together to build a picture of me as they want it to be seen then driving it so it is kept hidden what they have been doing and continue to do has left me feeling like I'm fighting for my life again and because of absolutely wicked people that have manipulated the power of God in their friends and driven it against me it's not right I know 100% it's so wrong there is not a single thing over and above what I've already tried in order to resolve this between is they don't want to sort anything it's all attack attack attack and hidden character assassination and they have gone at it like something I have never seen in my life and it's so beyond anything normal it akes it hard to explain to people without sounding hysterical.

Please speak to the females at AUL station and tell them if they want to be police officers they need to stand out from the crowd and be a police officer I'm upset but I'm also a bit angry now because I know I've not done what these people (x0127 moorhouse and pc15744 Garside) are trying to claim I have been doing (stalking) omg please ask a yone local to my area I wouldn't get of my chair for something like that I'm not eve. I. Facebook or Instagram because I find the whole thing completely boring and a bit weird (diff generation).

I hope I'm hitting the right chords here I would never set out to make trouble like this for someone but I have been forced to defend myself after setup after setup after setup a dall carried out with maximum delay maximum damage maximum cloak and dagger tactics.

I should probably draft this but I'm just going to send you as is.

In summary, what I'm saying is;

Please sort the women out and tell them they MUST give someone an opportunity to at least defend themselves, the last two women out the phone down on me and like I said I don't want them particular women meithered because of that I can only imagine my name is absolute mud but I'm not happy about that I don't deserve any of this and the two officers that peddled it, they have lied, cheated, stole deceived.. I mean when I found out I. Dec 2021 I messaged them saying "omg etc you better go out there and fix this mess you cheeky \*bleepbleep\* etc etc" I have them warning to fix their slander even after they pinched the two cars at around 18k theft and you know what they did?

Put a Google maps marker over my house that said "COUNCIL HOUSE"

I am so angry about everything because it's been done so sly and so 'messed up' there is no better example of sociopathic engineering to what's gone on here I feel like these people have been feeding everyone what can only be considered as a pack of lies but no one will tell me what's going on and they're meant to be police
