GMP & GMCA CORRUPTION

SCANDAL | SCANDAL | SCANDAL | SCANDAL | SCANDAL | SCANDAL | SCANDAL | SCANDAL | SCANDAL

Since 2021 Mr Moores has been the target of a baseless personal vendetta driven by two GMP Road Traffic Police Officers that has developed into a matter of concern so serious it represents no less than a public scandal.

It has entirely destroyed Mr Moores's life and enveloped him.

He is unable to walk away from it in the current state.

GMCA
GREATER MANCHESTER
COMBINED AUTHORITY

Theft, Corruption & Smear

Two GMP Police Officers stole upwards of £20k assets from an unknowing victim using GMP's Unit Operation Wolverine as a backdoor to realise the theft.

~ EV05

Alongside the theft of two vehicles in back-to-back organised hold-ups, they were also discovered to have peddled the most indecent and dangerous type of personal slander about their targetted victim – claiming he was a stalker and a danger to women whilst keeping their accusations hidden from him for over 6 months before their malicious plot was eventually discovered.

A smear campaign and personal vendetta based on mistaken identity, peddled on a countywide scale in secrecy for over 6 months, before eventually being discovered.

Having robbed their targetted victim of nearly £20,000.00 assets, they were then seen to make further efforts in publicly humiliating their target by brazenly divulging personally confidential information and placing a Google Maps marker over their targetted victims home address on the Google Maps platform that said "**COUNCIL HOUSE**".

Soon after the target found the Google Maps marker placed over his home address which was discovered on Christmas Eve their victim connected the now numbering dots, suddenly realising, he'd been made the target of an industrial scale character assassination campaign.

***The ever increasing frequency of hostile and suspicious behaviour** exhibited by strangers in public places that had steadily increased to the point of being constantly unsettled.*

The target had seen his life slowly deteriorate as the the two Greater Manchester Police Road Traffic Officers; female Traffic Officer **PC15744 GARSIDE** and male Traffic Officer **PCX1270 MOORHOUSE** along with the female officers Daughter known as **Miss Garside Jnr.** and her friend – a certain **Miss Lydia Durnford**, were discovered to have been peddling indecent accusations about their unknowing target that he was a stalker.

***‘Walls were built around their target’** by interfering, undermining and corrupting every part of their targets life.*

It was established that the officers, connected to a woman the target had a short-lived romantic interaction with, had stalked him at home, stolen his cars and were then discovered to have peddled the most indecent and perverse slander.

The targets discovery and shocking revelations saw one after another separate incidents revisited from memory, each highlighted through the increasing frequency and intensity that first aroused his suspicions prior to discovering that path of inquisition.

By Christmas Day, the target's world had descended into darkness. The true horror of what had befallen him had been grasped. The sheer size of the issue was overwhelming.

The target realised he must act to defend himself.

In the days after the targets mortifying discovery of the widespread slander, the target took action to defend himself.

Compilation of a crude 50+ page document that explained the situation to the best of the targets questionable ability was published and dispersed in local pubs around the Stockport area in an effort to table the issues and mount a credible defence. This unorthodox manoeuvre later proved a somewhat fruitful strategy.

In the time between the Officers *stealing* the targets cars in August 2021 until the target dropped his *write-up* into the public domain in late December that year, the Officers were witnessed on separate occasions running into the 10's then 100's of times; *thrashing* up and down the main road outside the targets home address, pulling over anything that moved on wheels for many months – until early December.

A fortnight before realising the toxic slander campaign, the targets concerns had already reached critical levels when he'd caught the female Road Traffic Officer GMP PC 15744, outside his home address, in the passenger seat of her Daughters Silver Ford Fiesta in early December 2021.

The Driver* – PC15744's Daughter a.k.a Miss Garside Jnr. was in the very *same driving seat* of the very *same Silver Ford Fiesta* witnessed on a number of occasions many months earlier, *instead with Miss Lydia Durnford in the passenger seat.

On discovering all keys fitted each lock along a potential pathway of alleged stalking, the target immediately messages the promiscuous Miss Durnford.

The target sends a message, setting out a numbered list of different incidents that he suspects has led Miss Durnford and her pompous-posse to misinterpret the situation. One after another potential claims were shutdown in a damning reel-off of fact-for-fact statements.

This message saw Miss Durnford and her half-witted regime served up with a torrid of insult and abuse, which many would agree lenient given their devious and altogether disgusting behaviour which saw him robbed of two prized vehicles in back-to-back organised hold-ups, stalked at home for many months, slandering him in the most grotesque manner through extensive and sociopathic cloak and dagger attacks then finally – when they were seen to have placed a marker over their targets home address on the Google Maps platform that was not only highly insulting – but also divulged his confidential information on a dangerous and grandiose scale.

It was already clear to the target at that stage that he was under the most serious attack. What would later be discovered in retrospect over the weeks would shock him to the core, and where he'd be thrust into a situation that would see him fighting for his life.

The Officers methods of attack left their victim increasingly confused and unsettled in what would eventually surmount to a fight no less than that of life and death.

For their target back in August until his eventual discovery of the Officers twisted plot later that year in December 2021,

This Was Just The Beginning.

Their targetted victim was seen to deliver a ‘write-up’ to a number of local pubs in the Stockport area where he’d first began noticing issues with strangers in public places behaving *out-of-hand* towards him.

On one occasion witnessing a sizeable group of bar staff pointing and staring, which formed the lynchpin to the thought process that saw the Officers poisonous plotting unravelled.

No sooner had the target delivered his write-up then the kamikaze night-time-bandit-cop-duo were gone from outside his home.

The road went quiet and the Officers it seemed, had *disappeared*.

Dropping this ‘write-up’ into the public domain saw the Officers involved immediately suspended.

This became clear to the target when the silence was suddenly broken just a week later in early January 2022 when the Officers returned this time, with a frenzied *Village Lynching Mob* in tow.

The pilfering and now suspended Officers with their sizeable mob, understood to be friends and family who were then seen to redouble the efforts made by the nigh-time-cop-bandit-duo through a highly-aggressive and orchestrated, group stalking initiative.

By now the campaign of character assassination had been in full swing for over 6 months and actively hidden from the target, giving the target no opportunity to respond to their accusations and preventing him from defending himself.

The target was pursued daily for three months by a smarmy army of willing participants happy to join in the corrupt and suspended Officers mindless mobbing.

The GMP Officers, Offspring and Friend at the centre of the Issue

Origins

The officers at the centre of this issue which began in 2021 and has now developed into a campaign of terror spanning nearly three years, are **PCX1270 Moorhouse, PC15744 Garside and PC08820 Bateson.**

- GMP Traffic Officer(Driver) – PCX1270 MOORHOUSE

- Works alongside GMP PC15744 Garside.
- Known to be complicit in a conspiracy to steal the two vehicles.
- Understood to have masterminded the theft of both vehicles.
- Known to be a stalker.

- GMP Traffic Officer(Drivers Assistant) – PC15744 GARSIDE

- PCX1270 Moorhouse's work partner.
- Has a daughter, Miss Garside Jnr.
- Known to be complicit in a conspiracy to steal the two vehicles.
- Understood to have masterminded character slur at civil service level.
- Known to be a stalker.

- GMP Operation Wolverine – PC08820 BATESON

- Friends of the two Road Traffic Officers – Officer in Charge of Vehicles.
- Staff at GMP's Operation Wolverine – Specialist Vehicle Crime Unit.
- Known to be complicit in a conspiracy to steal the two vehicles.

- Miss Garside Jnr.

- Friends with Miss Lydia Durnford.
- PC15744's Daughter.
- Understood to have masterminded character slur at local/personal level.
- Owned and drove a silver Ford Fiesta in time period April 2021+.
- Known to be a stalker.

- Miss Lydia Durnford

- Source of the false accusations being peddled.
- Understood to have masterminded character slur at local/personal level.
- Miss Garside Jnr.'s friend.
- Known to be a stalker.

Despite multiple opportunities, the officers failed to raise their concerns with their chosen target and instead committed themselves to a highly indecent and predatory campaign of malicious character assassination alongside Miss Garside Jnr. and Miss Lydia Durnford, where checks later revealed Miss Durnford to have already been in a relationship with another man at the time she engaged the the target in conversation that was romantic in its intentions.

Miss Lydia Durnford and Miss Garside Jnr. alongside the two road traffic officers were seen to have have initiated their debauched campaign from around May / June 2021, through a conviction made in malice, convicted without trial and condemned in his absence. Kitchen Kangaroo Court convictions served by a judge, jury and executioner, somewhere in the unassumingly murderous and delinquent infested suburbs of Cheadle and Cheadle Hulme, Stockport.

The Target – Unknowingly Convicted as a Stalker in His Absence.

Punishment;

Peddling of highly destructive and toxic slur of the most dangerous and indecent sort, carried out on a countywide scale, advocated and undertaken in secrecy, applying professional training, abusing access to police resources, abusing access to police intelligence systems, abusing positions of trust and responsibility – simply – to abuse of a person made defenceless through their willing ability to employ deplorable tactics in violation of common-decency and honour.

Issues faced;

Inside connections through 20+ years in the service.

Fanatical perception of comradeship that seems to have stripped many of common-sense.

‘Evidently Substantiate’ opinions naturally extending the same in the Officers personal lives.

Widely accepted social norms of society to overcome.

The indecent cloak and dagger attacks were carried out alongside the fact that the Officers failed to give their target an opportunity to respond to their accusations or defend himself despite numerous opportunities to do so prior to their devious plot coming to light.

The full extent of the damage from the breakaway regimes petulant scaremongering and slander peddling remains something yet to be fully realised as the sheer scale and number of personnel involved is now well into the 30's.

The Officers M.O and tactics set stage for a perverse spectacle of corruption that later developed into a widespread conspiracy conducted in breathtaking in scale.

They've been seen to have made absolutely no effort whatsoever to restore the situation despite the understanding the officers and their co-conspirators would've realised they were wrong in their initial suspicions – instead, completing a *full-number* on their targetted victim by failing to own up to their mistakes, saving themselves, leaving their target with nothing but a fight for life on his hands and then further attacking their target having been kept in their job through the systemic levels of corruption that has castrated GMP's ability to clean itself up and provide a proper police service.

This castration saved the corrupt Officers careers where they immediately returned to their murderous ways and continued their targetting of Mr Moores.

With the Road Traffic Officers exoneration immediately came the reinstatement of the very serious question mark over their targets head;

~ *broadcasting an opinion* ~

that their target was indeed some kind of stalker.

Murderers.

Two Vehicles Stolen

The two vehicles that were seized from the target by PCX1270 and PC15744 in back-to-back hold-ups were immediately forwarded to GMP's Operation Wolverine, this procedure taking place outside normal protocol.

Following a fortnight of evasive and misleading messages from GMP's Operation Wolverine Officer PC 08820 Bateson who was in charge of the vehicles, the target finally received a response after 5 days of ignorance to the targets pleas for an update. The response from PC 08820 Bateson said: "Too late, your cars have been authorized for resale".

*Approx. Twenty Thousand Pounds worth of vehicle stock,
stolen on a whim. No questions asked.*

GMP's Operation Wolverine responded to the targets complaint that he immediately raised with 101 after receiving the notification that the cars had been authorized for resale. The target was subject to brazen bullying and repeatedly insulted by the officer handling the return call made in response to the complaint raised with 101 in the days earlier.

The officer handling the complaint in August 2021 eventually **admitted liability** and sent the target a form to reclaim money from the sale of the targets vehicles, not before repeatedly telling the target throughout the call..

“ “ what do you want your cars back for? you're banned anyway ” ”

EVIDENCE -> EV05 - (operation wolverine admits liability)

~ EV60 + EV05

Solicitor Coercion #1 – Convicted in Malice

~ EV76 + EV77 + EV78 + EV39 + EV86 + EV59

The Officers slander eventually reached the jails of Forrest Bank where their target would be driven in the months after discovering the twisted plot in December 2021 when later in March 2022, a legal hearing directly related to the Officers previous blundering is then also corrupted.

Corruption of a Magistrates Hearing was carried out through the Officers inside clique, a woman by the name of Miss A. Dean – based at the Manchester Magistrates Courts, working at the National Probation Service offices.

Through the suspended Officers plotting, they had Miss A Dean coerce their victims defence solicitor, a certain Miss Helen White of Stokoe Solicitors, into acting against her client in the courtroom.

This coercion saw Miss White betray her client as a ‘favour to her pal’, by turn-coating in the moment, deliberating entirely to their victims discredit, resulting in the complete dismantling of their targetted victims defence and a conviction made in malice.

***This was ‘building of their walls’,
and Familiar trait on their now well established M.O.***

As a direct result of the officers interference and their inside connections to more corrupt civil servants, they were able to install a certain Miss A Dean who whilst acting in official capacity on behalf of the National Probation Service was able to *commandeer* the legal process that took place that day.

They were successful in corrupting their targets defence resulting in
their victims first ever custodial sentence.

Miss A. Dean submitted a heavily biased and insulting official PSR Report to the court and also conducted her second and this time successful attempt at coercion, where Miss A Dean was witnessed loitering outside the targets courtroom and engaging officials and where it seems she failed in her first attempts at derailing the previous hearing who was seen to be clear in her intentions of coercing Miss McLaughlin, the solicitor that represented the target at the first hearing 16th February 2022 and resisted Miss A Dean’s attempts, and was then replaced at the targets second hearing 25th March 2022 at Manchester Magistrates Court by Miss Helen White from the same London based firm that has offices in Manchester – Stokoe Solicitors.

Miss Helen White succumbs to A Deans coercion at the targets second hearing 25th March 2022.

Proactive efforts were made that saw the targets hearing hijacked by corrupt bureaucratic terrorists and what later amounted as to the commandeering of the entire apparatus of local authority, and the entirety of the legal process their targetted victim was made subject to.

Numerous Officers were under suspension at the time the hearing took place 25th March 2022.

The hearing itself was one brought about through the officers immediate mishandling in what would later follow an ongoing pattern of direct interference and corrupting of the legal process.

In this particular instance, direct interference and corrupting of a legal hearing brought about by their own Chief Constable and that as a direct result of the officers previous blundering and misdemeanours and the resulting drama it brought.

The Officers then sabotage and corrupt the Chief Constables hearing.

Through Miss A. Dean - who undertakes a plan of premeditation.

~ EV49 + EV35 + EV28

Miss A. Dean strategically positions herself through her professional role and the trust placed in her. Her premeditated plans of derailing the legal process at Manchester Magistrates 25th March 2022 are carried out in plain view of the courtroom. A. Dean was successful in her second attempt at poisoning the targets defence solicitor, where Miss White turned against her client through A Deans coercive blaggery.

Along with her new found partner in crime and co-conspirator,

***Miss H. White** commits an act of misconduct to which there is no greater offence in plain view of the whole courtroom – left completely unchallenged.*

Miss A. Dean and Miss H. White were seen that day demonstrating a most dangerous, willing and capable mode showing an alarming capacity to commit very serious wrongdoing,

Through the concerted abuse of their professional, legal and moral obligations whilst in publicly funded position of trust, they were successful in manoeuvring their target into extreme danger.

Whilst serving the unlawful custodial sentence received through the mistrial at Manchester Magistrates Court, the target would soon after become the victim of yet another attempt to assassinate his character and in extremely dangerous circumstances when the wing-alpha attempted to label the officers and offspring/offspring's friends target a stalker and a pervert and spread this misinformation throughout the jail.

National Probation Service – Corruption & Appointment Issues

Following the targets release from prison, he immediately began attending Probation appointments where further attacks were carried out. This time, by a certain Miss Kelly Jeffers at the Probation Services – Ashton Under Lyne branch.

Miss Kelly Jeffers was discovered to have facilitated multiple attempted setups understood to be the work of *Miss A Dean, Moorhouse and Garside*. On one occasion on the 16th June 2022, the two ring leading criminal Police Officers PC Moorhouse and PC Garside were witnessed entering the car part at the rear of the Ashton Under Lyne National Probation Services Offices where the target was due to attend an appointment. In that particular incident Miss K Jeffers proxied questions on behalf of the two officers where the target was subject to a barrage of insults and attempted self-incrimination through lines of questioning that included information that could have only been known by the two Road Traffic Officers PC15744 and PCX1270 given the Probation Worker Miss Jeffers had no inside knowledge of the situation yet was able to put coherently constructed questions together in response to replies given in previous questions, fully underpinning the notion the two Officers were in control.

The information Miss Jeffers was able to regurgitate whilst tapping away on her phone under the desk, could only have come from the two Road Traffic Officers.

After 4 months of sustained abuse from the crafty K. Jeffers, the target boycotted sessions with the fiendish probation worker and began to compile an in-depth report with aims of raising the issue in order to put a stop to the ongoing attacks and initiate action to see the value of his stolen wares returned.

The target continued to boycott his Probation appointments and was eventually summonsed by Tameside Magistrates Court in September 2022, receiving his summons around the same time the report was posted to the PPO and emailed to the IOPC who then forwarded this on to GMP's PSB.

Following release from custody in April 2022 up until the targets decision to boycott sessions with Probation later that year, the target would be subject to countless acts of derailing through the Probation Service understood to be the work of Miss A. Dean and multiple incidents of clear infiltration by the corrupted Officers who proxied extremely dangerous and insulting questions through the targets probation worker at the National Probation Services Ashton-Under-Lyne branch through a certain Miss Kelly Jeffers.

The 16th June 2022 incident at AUL Lee Street branch saw a heated confrontation take place, where Miss Jeffers proxied an interrogation, delivered in a scolding manner, directed through a line of particularly vexatious questioning that was highly insulting which saw the target lose his temper, where he began serving up a torrid of negative factual statements about the Officers, to the point Miss Jeffers was half out of her chair leaning over the table between herself and the target whilst looking behind her at the door that brings you into the office and making ‘push down’ expressions with her arms and hands whilst saying “shh..sshhhh .. sshhh !! “.

Solicitor Coercion #2 – Derailed Attempts at Raising the Alarm

~ EV45 + EV115

Later that year, on receiving a summons for court in relation to the missed Probation appointments, the target sought a new legal advisor.

Miss Naila Akhter of Platts Solicitors based in Oldham with Offices in Rusholme. The target had a lengthy discussion with Miss Akhter over the phone where he explained his previous experience with Miss A Dean and Miss Helen White.

Miss Akhter openly stated in the initial call between herself and the target, that a “20 year working relationship” existed between herself and Miss A Dean and despite the target raising immediate concerns of a conflict of interest, Miss Akhter skilfully instils confidence in the target with numerous tails of past endeavours claiming to have stood firm on her ethics in the most testing circumstances.

The target unwittingly takes the solicitor Miss Akhter on her strong words and places his trust in her.

The target is then further attacked and undermined at court on the day, where Miss Akhter shrewdly traverses a craftily constructed line of action that is clear in its attempts to first humiliate the target in the initial pre-hearing consultation and where she then again later in the most serious circumstances forcefully attempts to completely marginalise her client and co-conspirators target in the courtroom at the crucial moment, acting directly against her clients express instructions that were agreed on moments before the hearing took place at Tameside Magistrates Court.

Again as with Miss White, Miss Naila Akhter acted against her client and turn-coated in the courtroom where initially, she quite skilfully derails the target by blatantly ignoring the clear

instruction given to her moments prior in the pre-hearing consultation where she had been explicitly told to table the issues with the traffic officers which had been continuing non-stop at that point for over 12 months including the issues with the Probation Service that had the target before the court that day.

Miss Naila Akhter's manoeuvring was pre-meditated and undertaken with great care. Even after making grand statements on her unwavering commitment to duty, where the target shared their previous experience at Manchester Magistrates Court and the issues with the Solicitor Miss White and her treacherous stitch-up 6 months prior that saw him receive his first ever jail sentence.

She instead butters her client up and places herself in position then stops responding to calls and messages until the day before the hearing.

Despite managing to over rule his manipulating second Defence Solicitor and being given opportunity to speak to the court, Mr Moores's arguments are determined to be an unrelated matter. Tameside Magistrates' decision saw the target ordered to return to Probation Appointments along with a £50 fine.

Given the dynamics of matters as they were at the time, the target believes Tameside Court ruled in the fairest possible way in that hearing however no requests for further information were sought by the Court.

GMP's Professional Standards Branch Corruption

Around the time of the hearing at Tameside Magistrates with Solicitor #2 Miss Akhter.

Mr Moores also raises a complaint with the IOPC in September 2022.

The IOPC forwarded this complaint to Greater Manchester Police where it was picked up by a certain PS Elizabeth Green at GMP's Professional Standards Branch.

On return home from the hearing at Tameside Magistrates, the target eventually comes to the realisation he had yet again been duped.

The target then immediately messages the officer handling his complaint at GMP's Professional Standards Branch, PS Elizabeth Green, who the target had just 24 hours previously confided in and expressed serious concerns over the coming hearing and his fears of being 'stitched up' again and being 'strongly advised' to attend.

The target goes on to vigorously protest at the experience he'd just had at Tameside Magistrates Court and his strong suspicions of another stitch-up by N. Akhter.

PSB Police Sergeant Elizabeth Green does not respond to the targets messages following the Tameside Magistrates 'stitch-up'.

Following a small number of messages between the Professional Standards Branch Officer and the target, PS E Green then stopped responding to messages or requests for an update. Instead closing her desk nearly 3 months later at Christmas, whilst leaving an automated response that was clear in its intent to mock their target.

PS E Green would eventually be 'kicked off the job' in December 2022 for failing to respond by which point the target had been subject to intense attack for over 18 months through a sustained ground floor campaign initiative. Countless acts of provocation and attempted intimidation were being carried out by the officers directly outside the targets home address, including gangs of young men connected to the two women at the centre of this issue outside the targets house.

Numerous incidents saw different gangs of young men outside the targets home. On numerous occasions, a young male from the Stockport area known as 'Nathan' who is known to be the partner of Miss Lydia Durnford, was witnessed amongst the different groups of young men that were seen loitering outside the targets home address including the targets local shops. On one occasion, one of the group left their calling card by spitting on the targetted victims cat however they failed to engage their target at any of the numerous visits instead being engaged on a number of occasions by the target.

During this time, efforts were made to sow decent at the subjects Social Housing Landlord. Miss Minnie Gharda, the targets Landlord Agent from Irwell Valley Housing Association was discovered to have fiendishly applied to the Courts in secrecy where she [obtained an eviction warrant](#) despite numerous telephone discussions taking place between Miss Gharda and the target in the lead up to the target receiving the eviction papers through his letterbox.

No disclosure of any issues were made by the agent who failed to declare her intentions, withholding this information and preventing the target from defending himself.

The male traffic Office PCX1270 Moorhouse was witnessed circling the targets home address 100's then over the years 1000's of times, in separate incidents over the years that followed including bringing friends and family members along where in one instance, PCX1270 Moorhouse was witnessed playing love music extremely loud from his car outside the targets home address whilst young woman proceeded to scream at the target through every open window of another vehicle that was witnessed cruising at speeds in excess of 4mph as the target crossed their predetermined path of collision on the road directly outside the targets front door.

The target sits in ruins throughout one of the bleakest Christmas periods on record.

'The Village BullyBuoy' – PCX1270 Moorhouse continues to do 50+ laps a day around the targets home address. Bringing anyone along for the ride and driving the situation to complete farce by turning the targets home into an amusement park – a middle-class day out for riff-raff sightseeing at a local drive-thru human zoo.

After ignoring multiple requests from the target for an update for nearly three months, PS Elizabeth Green eventually closes her Desk for Christmas and leaves a message in her automated response that is clear in its intent to mock the target.

Stokoe Solicitors – [Complaint #1](#)

~ EV116

In early June 2022 just prior to submitting the complaint to the IOPC → GMP PSB, the subject contacts Miss White and asks for copies of all documents relating to the hearing 25th March 2022.

Miss White delays sending important documents requested by the target, in particular, the Post Sentence Report which the target had an original copy of, received whilst serving the custodial sentence handed down at the 25th March hearing. The target did not make Miss White aware of his possession of the original Post Sentence Report.

The court documents were eventually received from Miss White. They were added to the Evidence Cache and later used as a point of reference during the construction of the first written complaint intended for the IOPC/PPO.

Later that year in September 2022 around the same time the complaint was raised with the IOPC, the subject also raised a complaint directly with the law firm that appointed Miss White at the Manchester Magistrates 25th March 2022 hearing.

The complaint raised with Stokoe Solicitors tabled a number of very serious issues with the service received from Miss White that was clear and blatant treachery and no better a spectacle of turn-coating as you could set an example by.

Mike Sophocleous from Stokoe Solicitors handles the complaint raised concerning Miss White.

The client complained that Miss White deliberated against him in the courtroom. He also complained of certain Driving Convictions stated on Miss Helen Whites Post Sentence report that the target received whilst serving his first custodial sentence through H Whites disservice, which stated as being convicted of certain driving charges that he had not previously been aware of and did not enter any plea to.

Stokoe Solicitors representative Mr Mike Sophocleous responds to the targets complaint by claiming that the target is attempting to “*gloss over matters*”, a clear rebuff to the efforts made by the target when he proposes an avenue of reconcile. The targets proposal of resolution is instead used to attack their client who Stokoe had already committed a very serious offence against.

Mr Sophocleous chooses a path that sees him demonstrate clear attempts to evade his responsibilities where he handles the response by insulting the client with inflammatory attacks and unnecessarily vexatious retorts.

Mr Sophocleous claims H. White delivered a good service.

The complaint was not upheld.

Response from GMP Professional Standards Branch

(complaints hop 1)

~ EV84 + EV52

A response was received from the officer that replaced PS Elizabeth Green at GMP's Professional Standards branch in late February 2023.

The response from GMP determined that the Officers listed in the complaint who were seen to be evidently implicated in serious acts of misconduct and unlawful activity were in fact not responsible for any of it at all, in any way. Of the three separate complaints the report from GMP's PSB formalised;

All but one of the allegations the complaint raised was refuted.

In the response from GMP's PSB, amongst its findings was an agreement which determined that there had been foul play at Manchester Magistrates 25th March 2022.

The report from GMP PSB in response to the complaint was determined as in agreement to the allegations that there had been serious acts of misconduct carried out by NPS Miss A Dean at Manchester Magistrates Court 25th March 2022..

The report was also determined to be in agreement that there had been serious breaches of trust by the targets Defence Solicitor Miss Helen White who acted against her client in the crucial moment, seeing the most unfavourable convictions served on the target, including his first and only ever immediate custodial sentence.

[EVIDENCE HERE](#) – C0/02570/22

~ EV52

Unfortunately, the response from GMP's PSB was unsatisfactory as it failed to recognise the many wrongdoings carried out by the officers at the centre of this issue and failed to make any promise of restoration for the value of the two vehicles that the target had been evidently and unlawfully dispossessed of through the GMP Road Traffic Officers and Operation Wolverine's gang member PC08820 Bateson, who sent false, inaccurate and misleading information in responses to the targets requests for information. and where evidence of exhaustive efforts were made by the target to recover the two vehicles.

***The complaint was then forwarded for review with the GMCA
where it was picked up by PCC Ms Kate Green.***

Response from [GMCA Police Complaints Review](#)

(complaints hop 2)

~ EV63

Following the targets receipt of GMP PSB's final response, the target then raised the complaint for review with the GMCA. This was picked up by Ms Kate Greens office.

The target would not receive an update or response to any of his messages until approximately 5 months and 28 days after submitting the complaint for review.

The final response received from Ms Kate Greens office on behalf of the GMCA failed to acknowledge the most basic principles of the situation such to the extent the response could be considered no less than absurd.

The response from Ms Greens office at the GMCA went on to ‘rewrite history’,
claiming that the officers had *‘no connection to each other’*.

The GMCA’s findings, published 27th July 2023 heralded the next phase of attack where their target would immediately become the focus of extreme acts of sabotage by a small army of bad actors connected to the Road Traffic Officers that took Ms Greens exoneration as a signal shot.

Their target held firm suspicions of a stitch-up but was without the evidence needed to support his suspicions however, through the sheer incompetence of GMP’s Professional Standards Branch Officer Police Sergeant Elizabeth Green, their target would be **accidentally included in an email thread** from PS E Green’s personal inbox where the target had only ever conversed with PS E Green through the GMP Complaints Email address and this happening whilst conversing with GMCA’s Kate Green in circumstances that **substantiated an evidential link** underpinning accusations of misconduct and improper handling by the pair.

Within 2 months of receiving the final response from Ms K Green on behalf of the GMCA, the targets business was attacked, work van destroyed, emails hacked, google business and bing profiles hacked and 100’s of images deleted signalling the destruction of his proof of character and history. He would be reported to the Jobcentre, PCX1270 would reinstate his ruthlessly insulting, violating and degrading predatory hobby of endlessly lapping around the targets house.

Innocent people connected to the subject – personally motivated targeting by Government Officials & Civil Servants

~ EV104 + EV60 + EV103

Documents were rubber stamped at the Courts by an insider at Tameside Councils Tax Revenue Department where efforts to target the victims innocent and unknowing partner were made. Having an Attachment of Earnings order drawn up that state her as being on the payroll of

the company registered in the name of the targetted victim, which is not true, is not recorded anywhere and could only have come by word of mouth.

Amongst the vast amount of bogus documents that were drawn up by Ilys Cooksen at Tameside Council was one that included a £1478.61 debt.

These Official Documents which knowingly contained bogus information, understood to have been drawn up by Ilys Cooksen at Tameside Council, were sent to the victims partner and being printed and posted just one day before the targets partners' birthday and this, some three weeks after the counterfeit documents were in the corrupt Council Officials possession, demonstrating clear intentions of spitefully ruining the targets partners' special day, driving further indecent attack and misery into the life of their beleaguered target.

This was much inline with the issues the target had been facing whether it be an arrest warrant at Christmas, an eviction notice on his birthday or a fine on new years eve.

Timestamps on these 'official' documents that were wilfully authored to contain bogus information, are stated as being drawn up in late July, yet failing to hit the post system for three weeks.

Instead being printed and posted three weeks later in mid-August.

Posted 1 day before the birthday of the target's partner.

Landing on her Birthday for the Second Year in a row.

Problems of clear targetting by an insider at Tameside Councils Tax Revenue Department have been ongoing since the GMP Officers at the centre of this issue began terrorizing the target full-time back in early January 2022, when the target was immediately bombarded with bailiff visits and a deluge of debt letters through his letter box every other-day for many months.

The victims partner would later again be targetted and attacked, this time by a bailiff understood to be connected to the woman at the centre of the stalking claims.

Solicitors Ombudsman Issues

~ EV75 + EV76 + EV77

In November 2023, the target refocussed his attention to the wrongdoings committed by his Solicitor in March 2022 at Manchester Magistrates Court that saw him receive his first and only ever custodial sentence – Miss Helen White of Stokoe Solicitors (Manchester) – turning his attention away from GMP and the GMCA.

This course of action was taken despite the target having come into possession of clear evidence that underpinned his suspicions of corruption of the complaints process at GMP by Police Sergeant Elizabeth Green and a separate case of corruption when the complaint was raised for review at the GMCA where it was handled by Police Crime Commissioner Kate Green.

The target had already raised a complaint with Stokoe Solicitors in August 2022 concerning the disservice received from one of their Partners – Miss Helen White.

The target then raised a second complaint with Stokoe Solicitors – where new information had come to light surrounding Miss Helen Whites serious act of treacherous misconduct at MMC 25th March 2022. This second complaint with Stokoe Solicitors was raised following the publishing of GMP's PSB and then later the GMCA's findings – where the complaint was *not* upheld.

This prompted a fact-check where it was then identified through cross referencing of the two sets of documents supplied by Miss White, the first whilst serving the custodial sentence and the second set months after release, that should have been identical. The documents were not identical. It was clear that the documents had been subject to wilful tamper.

Motive would suggest this was done in her attempts to conceal her disservice, instead revealing that Miss White had not only betrayed her client at Court on the day, but had also later drawn up bogus documents that contained incorrect information which was initially held responsible as consequential to the failure in seeing the complaint with GMP's PSB or the GMCA upheld.

Revaluation of Mike Sophocleous's handling of the initial complaint the target raised directly with his law firm regarding Miss Whites conduct many months prior to this issue coming to light, outlined another serious act of negligence in respect of Mr Sophocleous's conduct where it later transpired that the act of wilful tamper or negligent handling had been carried out on Mr Sophocleous's watch.

Mr Sophocleous's handling – review of 1st contact / complaint raised August 2022.

Mr Sophocleous overlooked the following facts:

1. Miss Whites PSR from the 25/03/22 hearing @ MMC which was printed and posted to the target whilst serving his first custodial sentence, this was not the same Document given to the target when he requested copies from the Solicitor many months later in July 2022.
2. The target complained of Driving Convictions stated on H. Whites PSR.

1. Why was this not corrected by Sophocleous when raised as a direct issue in the targets initial complaint with Stokoe in August 2022.

- *Inline with a traversed angle of play that enabled Miss White to make a best attempt at ‘escape’ through her issuance of tampered PSR documents when she attempts to conceal her mistakes.*
- *Either that or Sophocleous doesn’t have a clue what’s going on in the same way I’ve been completely clueless as to my true legal standing since being sent different copies of the same legal document that state different convictions from the same sentence at a hearing corrupted by one of his Partners. (!!!).*

~ EV59

Incorrect information contained in Miss Whites PSR documents formed major components of a substantial in-depth report that raised the issues with the Police Officers and their mishandling. This incorrect information is understood to have discredited the report/complaint that was later painstakingly compiled and submitted with primary aims of restoration, instead failing on account of the incorrect information it contained through reference of Miss Whites bogus documents.

Immediately after receiving the final response from the GMCA

Less than 24 hours following the GMCA’s final response, the target was subject to further attack.

In the weeks following, many more issues began transpiring in what was eventually identified as another intense and widespread campaign of sabotage and corruption.

Within eight weeks of receiving the final response from Deputy Mayor Kate Green on behalf of the GMCA - the target had been subject to having;

- **Work van suspension destroyed**
 - 2x Independent Left/Right Front Wheel Suspensions Racks – Destroyed. - EV105
- **Business online profiles hacked – (Tameside Pointing)**
 - **Google profile hacked** with 100’s of images deleted.
 - **Bing profile hacked** with 100’s of images deleted.
 - **Email account hacked** – unknown sabotage.
 - **Nuisance callers** harassing the businesses phone line.

- **Subjects Partner targetted and Robbed** by Marston's Bailiff insider.
 - [EVIDENCE HERE](#) - EV60
- **Subjects Partner targetted and Defrauded** by Tameside Council insider.
 - [EVIDENCE HERE](#) - EV103
- **Subject Reported to the Jobcentre** for *‘working on the side’*.
- **PCX1270 returns and starts doing laps** round the subjects home.
- **180° GMP Camera Installed at Rear** of the subjects home address.
 - [EVIDENCE HERE](#) - EV106

GMP Officers' Inside Connections at GMP PSB & GMCA

~ EV02

Having received the final response from the GMCA in July 2023 which the target suspected was a stitch-up, he was then burdened with the worrying proof his suspicions were in-fact correct.

This was confirmed when the target was accidentally included in an email thread from Elizabeth Green's personal inbox that substantiated a connection between herself and Ms Green. It underpinned allegations of corruption in part of the complaints process at GMP and the entirety of the review process at the GMCA.

Despite the fact the target was landed with both a.) confirmation he was stitched up and b.) proof of a stitch-up, the target instead maintained his refocussed attention firmly on the wrongdoings his brief Miss Helen White from Stokoe Solicitors committed against him some 18 months earlier, which saw him immediately incarcerated for many weeks and become the target of further attempts of character assassination through inmates connected to the young women and the Officers at the centre of the issue.

Six months later, after turning his attention away from the GMCA and GM – a complaint the target raised with the Solicitors Ombudsman concerning Miss White and the BLACK AND WHITE evidenced corruption is clearly whitewashed.

Two days after receiving the whitewashed report that is impossible to draw a conclusion from, a best effort attempt was made to publicly humiliate the and have him arrested at a self-employment advice session appointment arranged through the Jobcentre.

Officers were in attendance at the targets appointment 27-01-24 at Orient House – Hyde, where the target was subject to interrogation by two woman that work at the centre.

Lines of questioning that should not be of interest to the targets interrogators nor should they've had enough background information or knowledge of matters that should enable them to put such lines of questioning to their target.

On return home, the target, having realised he'd been at the centre of another attempted setup, also makes a number of connections to the Solicitors Ombudsman report derailment issues and attributes this to this latest attempted setup.

FEBRUARY 2024 INCIDENT - #1

Political Protest #1

This sees the target respond by signposting many hotspots of Manchester City Centre with a [notice to raise the alarm](#) and bring the matter to the attention of the public.

~ EV117

In the following days, the target is 'hunted' by a number of officers, some of their own accord and certainly not on official terms and another group that were dispatched from the Manchester Town Hall Extension where Ms Kate Green has main offices. The officers that were dispatched on official business from the Town Hall Extension were under the authorisation of DI Matthew Sheil.

The target found himself subject to frenzied attempts of 'apprehension' by numerous different groups of officers who were seen by the targets neighbours to be banging on the targets door, shouting his name, on one occasion, trying a neighbours door handle.

The target called 101 19th February 2024 in order to update on recent concerns in behaviour reported to him by neighbours. The target had the phone put down on him on two separate occasions in back-to-back calls to the service.

The target immediately recognised the character assassination campaign was still in full swing and decided he couldn't trust The Police to simply be straight with him, give him an opportunity to defend himself and not be the source of indecent and perverse, murderous slander.

The target made his way over to AUL Police station where he requested to speak to an officer in charge regarding the 101 issues.

One visit to AUL Police Station: Charged with Harassment

~ EV62

On return, the Police Desk Sergeant told the target "there's no one available to speak to you right now, can I take your number and someone will give you a call?" - the target then gave the Desk Sergeant his number and went home.

The next day, the targets home was subject to a warrant-less forced entry from Officers stationed at the Town Hall extension. The target was arrested for harassment for walking into a police station once, where the target had also specifically said to the lady behind the desk "**please ask any officer that's interested to please come and speak to me, they can ask me anything they want, I've got nothing to hide**".

The target was taken to Pendlebury Custody, where he was held for over 22 hours before he was finally interviewed.

Home Subject to Unlawful Warrant-less Forced Entry #1

All the targets computers, development machines and mobile phones were taken during the unlawful raid. Taking over two months to have them returned.

Evidence presented in the interview conducted by the young officer and his foreign counterpart centred entirely around a single document with the title '**Appendices**'. It was also recognised that the particular document that the case-file built for this young interviewing officer came from a

specific revision of a report that was sent to the GMCA, that Ms Kate Green personally mishandled back in 2023.

**The target was also subject to ‘inspection’ by mental health doctors.
It’s clear the targets belligerents were becoming desperate.**

Bail Conditions – Arrest #1

~ EV62

The target was eventually released with exceptionally improper bail conditions and certainly not inline with any legislation that's been in effect in this country over the last century.

The bail conditions also insinuated that the target had been ‘waving toy guns around in public’.

Over the next 3 weeks, the target would become locked in a war of words with the Officer in Charge, DI Matthew Sheil from the Manchester Town Hall Branch.

Eventually, things would come to ahead when Mr Sheil threatens the target with arrest after the target compliments one of Mr Sheil’s officers. This compliment is somehow misinterpreted, which sees Mr Sheil threaten the target with arrest.

By now, the target was extremely agitated by the situation. He’d been on the receiving end of sadistic, cruel and degrading treatment for many years which had completely destroyed his life.

The recent forced entry and seizure of his computer equipment had also undermined yet another major effort the target had made to stabilise his life.

The machines the officers took in the first forced entry included crucial hardware, setup as part of a business plan that was 9+ months in the making and already behind schedule through the non-stop issues being created for the target throughout 2023 and into 2024.

This included recent issues with the Jobcentre that saw payment blocked in a blatant act of corruption carried out in clear view, that prevented the target from receiving payments from Universal Credit which consequently saw the internet connection disconnected and another fundamental piece to the targets business plan undermined.

Personnel Itinerary Update – February 2024

February 2024 saw the situation extend itself to include:

- **GMP Professional Standards Branch Officer – Elizabeth Green**
 - [HANDLED TARGETS COMPLAINT](#) – COMPLAINT HOP 1

- **GMP/GMCA Crime Commissioner/Deputy Mayor of GM – Kate Green**
 - [HANDLED TARGETS COMPLAINT REVIEW](#) – COMPLAINT HOP 2

- **GMP Town Hall Extension – DI M Sheil**
 - [UNDERSTOOD AS DIRECTION FROM PCC K GREEN](#) – 2x Forced Entry with NO WARRANT
 - [LINK TO CORRESPONDENCE WITH DI SHEIL](#) – MANCS. TOWN HALL EXTENSION

MARCH 2024 INCIDENT - #2

~ EV62

Public Protest #2

Immediately after Mr Sheils threats of arrest, the target is driven to complete frustration. The target travels into Manchester City Center just before rush-hour and begins protesting outside the GMCA Offices on Oxford Road, Manchester.

The target then attempts to smash the windows at the GMCA Offices. Thankfully the windows are toughened glass, and hold up against the targets loss of control in the moment. Eventually, people begin to enter the building to start their day and the target stops trying to break the windows for sake of harm prevention.

On return home, the target immediately passes out with exhaustion.

A number of hours later, he is woken by a group of officers around his bed.

The target was later arrested for attempted criminal damage and for threatening DI Sheil.

Home Subject to Unlawful Warrant-less Forced Entry #2

The targets home was subject to another clear and unlawful, warrant-less forced entry including clear attempts from one of the officers to ‘impose himself’ upon the target whilst the target was making himself ready to be taken to custody, having just been woken up out of bed.

In this particular instance, there were certainly grounds for justification however no paperwork was prepared or presented during or after forcing the targets door. Entry was made by one of the Officers who physically kicked it in causing further damage to the door, lock and door-frame.

More equipment was taken in the unlawful raid in what is understood as another clear effort to identify, remove and interfere with the targets evidence. The length and measures taken by the seemingly lawless rabble indicate an element of desperation when packs of unopened construction site workwear that was still in its packaging was taken alongside a business lead that came through for Pointing work a day earlier. That particular quote was then missed, with the information having been seized and a very stressed target.

Despite raising multiple, multiple issues with the Officer in Charge such as a clear conflict of interest including strong evidence of serious corruption concerning an a Superior Ranking Officer stationed at the same building as the DI in charge, the majority of the targets claims were quietly swept under the rug, with the remaining questions being met with either delay or denial.

It’s clear that the officers are now exploring every possible option to have the target incarcerated in order to prevent their own wrongdoings coming to light.

The situation holds the target in ruins.

Bail Conditions #2

~ EV62

Inline with the previous bail conditions including more impositions that again, appear to be in serious violation of a number of different rights under the Human Rights Act 1998 and the European Convention for Human Rights.

Understood to be the work of Ms Green. An Equalities Minister and Labour Politician, apparently.

Bail remains set on the targets birthday.

GMP Complaints
| & |
GMCA Complaints Review

Compromise of the **two key positions** held by GMP's [PSB Elizabeth Green](#) and [PCC Kate Green](#) enabled them to consolidate complete control over the entire complaints and review process.

This has been fully exploited.

Summary

Its clear that the GMP Officers applied their professional training as the sheer size, scope and M.O of the campaign is evidence in of itself that forensically aware people were overseeing its execution, further supporting the idea it and people connected to it were acting under the guidance and advice of people with professional training.

Despite multiple opportunities and without good reason, the officers and their co-conspirators failed to mention to their targetted victim at the numerous meetings that took place between them, that dangerous and personally destructive accusations were being peddled about them. Not only were they remiss in their duty of care to protect people from danger, they were the source of the issue and they were also the force behind preventing its resolution.

Exceptional levels of deviant delinquency carried out in clear view. Categorical abuse in every element of trust that has been placed in these people, some of them senior officials and high ranking public servants. The sheer levels of sustained and choreographed abuse carried out by these people in their positions of trust and authority is staggering.

Innocent and unknowing members of their targets family have now also been evidently and indiscriminately targetted as a result of the malicious false gossip being spread by the GMP Officers in question, through what is understood as the peddling of 'selective pieces' of information that have seen their target drawn out in a most vicious, disproportionate and unfavourable light, such to the extent a 'common enemy' is built.

Malicious false gossip through 'selective pieces' of information.

A very dangerous and unforgiving type of characterisation, one that dehumanises the target and promotes particularly aggressive and indecent treatment from people. The Officers at the centre of this issue are believed to have manipulated their friends and colleagues natural instinct to protect and are understood to have crafted an account of matters in order to drive and antagonise a threat response instinct, wielding it as a weapon against their targetted victim, seeing attacks carried out by their friends/colleagues under the guise of defence.

Nearly 3 years on and the situation has spiralled out of control.

The destruction they have brought into the lives of those for who they are responsible and also to those for who they self-elected to manage on their behalf is immense. They have created an enormous amount of danger and ill feeling, driving up tensions and creating issues everywhere they go. Their hyper aggressive predatory nature has been the main catalyst in situation after situation that has brought exceptional levels of destruction into the lives of everyone involved.

The campaign overall has been conducted in a manner so brazen and of no-regard for the most basic principles of proper process or decency, bullishly carried out in ways indicative of high-level narcissism, over-entitlement and disregard for their responsibilities. It demonstrates clear, their willing and ableness in seeing through a reckless and impulse driven campaign revealing levels of disobedience and self-serving that are difficult to surpass.

Authors Note:

*“If you are going to launch some kind of attack on someone, at the very least, certify to your own satisfaction that you are acting in the best interests of decency based on an informed decision built around **facts**.”*

“If you are going to set about these sorts of attacks.”

*“ Own that reason. **TOP TO BOTTOM**. ”*

Problem here is that Officers are programmed to take instructions and not ask questions.

When this translates into issues in their personal life, they apply the same rules. Except there is no co-ordination, the drive is based around emotion and impulse, and the people driving the attacks can be doing it for the wrong reasons to which there is no stop button.

=====

The Contents of This Folder Contains Evidence of Corruption

Now Spanning Over 3 Years - Detailing an Extensive Campaign of Personally Motivated Attacks.

Attacks Conducted by a Wide Ranging Array of Bad Actors all Connected to Local Authority That Are Running Amok in the Government Offices They Hold.

Numerous Different Members of Local Authority have been evidently implicated ranging from: Police Officers, Solicitors, Council Officials, Probation Workers, a Professional Standards Branch Officer and as recently discovered, Deputy Mayor of Manchester Ms Kate Green whilst acting on behalf of the GMCA.

All information correct at time of writing.

=====

CURRENT SITUATION THAT HAS PROMPTED THIS ACTION

=====

Second Dimension – Recent Issues

(Feb/April 2024)

A complaint raised with the Solicitors Ombudsman concerning Miss White and the ‘Black and White’ evidenced corruption is quite clearly whitewashed.

Two days after receiving the whitewashed report that is impossible to draw a conclusion from, it's clear there was yet another best effort attempt made to publicly humiliate Mr Moores and this time have him arrested in what would have no-doubt been carried out in dramatic fashion at an appointment at a self-employment advice session arranged through the Jobcentre.

ISSUES WITH PCC KATE GREEN & INNOCENT PEOPLE CONNECTED TO SUBJECT BEING TARGETTED

Mr Moores recognises that he was very recently made the target of yet another attempted setup – understood to be the work of the now, ring-leading protagonist in this matter, Miss K Green.

“

Mr Moores feels it was bad enough when this woman and her relative at GMP's PSB set about him on a whim.. now Mr Moores has 'rattled their cages'.. Mr Moores also recognises that there has been clear efforts made by people connected to the corrupt officers at the centre of this issue, targetting innocent members of the targets family and quite successfully so far.. Mr Moores is fed up. The attacks, now extended to friends and family – have been carrying on for months now on-top of the issues Mr Moores been dealing with for many years.. enough is enough.

“

In December 2023 and again in January 2024, [an insider at the local jobcentre repeatedly sabotaged the targets account](#) which saw Social Security payments that were only drawn as a result of their long term destruction that has financially ruined the target, they blocked UC payments in what has formed yet another act of daylight robbery.

~ EV92

Despite multiple requests for an update through his UC Online Journal Mr Moores was ignored and this account continued to be sabotaged for over two months.

Going back another 2 months - before the UC account sabotage issues, in September of last year (2023), Mr Moores's business was targetted and attacked, over 100+ images deleted, Mr Moores's work van suspension system destroyed, hoax calls made to the targets work phone, reported to the jobcentre then around the same time the targets ex-partner was targetted whilst she was away on holiday with her Sister, she was [targetted by a certain officer Atkinson from Marston's Bailiffs](#) who evidently conducted an improper and proactive effort that saw her bullied, threatened and robbed of £245.00 after threatening her with arrest at the airport on her return if she didn't pay there and then.

~ EV60

This Atkinson from Marston's Bailiffs ruined her one holiday of the year, then she got home and discovered the Bailiff had also been to her home and made her look like a bad debtor in front of her gossiping neighbours. Checks then revealed Mr Atkinson had falsified the debt and used his job as a means of accessing the targets partner and robbing her for £245.00.

[Now the local Council has been targetting Mr Moores's partner](#) which has seen official documents drawn up containing false information that could only have come through word of mouth and where it has been rubber stamped by Tameside Court, they have repeatedly sent £1400+ bills with Miss Catlow being stated as on the payroll of Tameside Pointing

This is not true and the source of that false information is believed to have originated from the perverse and underhand scheming of bored and particularly crafty civil servants that have weaponized their access to government powers in order to further their personal agendas.

For the last 2 years Mr Moores's ex-partner has been sent a bill for £1400+, printed the day before her birthday and the same treatment for me two years on the trot including Christmas which also saw an arrest warrant in Christmas 22 and a court fine or summons IIRC, issued a few days before the Christmas of 2023.

~ EV103

Lovely people.

Miss Catlow is a very talented and hard working person but she has never worked for the target, she's useless at it, cant pick the phone up – established that one nearly 10 years ago but when she turned up to a date glammed up then whipped a brick out of her handbag and gave it Mr Moores as a present “thought you might need it for your jobs”, he knew he had a keeper – so he got over the fact she was a useless receptionist and instead loaded her up with a pair of premium marigolds :)

Nonetheless, that information is incorrect and more importantly it is not recorded anywhere and yet another indicator that proactive efforts were being made and personal attacks being launched and this time by an inside assassin at Tameside Council, this particular person has demonstrated a long term committent to ruining every Birthday and Christmas since problems with the Officers at centre of this issue began back in 2021.

=====

Mr Moores has ‘*banged every drum*’ that is available to him:

COMPLAINTS RAISED WITH:

- [GMP PSB](#) 1 . | 2 .
- [IOPC](#) 1 . | 2 . | 3 .

- [GMCA](#) 1 . | 2 . | 3 . | 4 .
- **PPO**
- **HMCTS**
- **SOLS. OMBUDSMAN**
- **LGSCO**
- **101 – 101** (*he’s at my house again*) – **999** (*there’s an army of them floating round my house again*) – **101** (*he’s at my house again*) “ “ ... “ “ ...
- **VISITED AUL STATION (arrested for harassment)**
- **VISITED HYDE STATION (...)**

Nothing has been done.

=====

“ *This is not something Mr Moores enjoys doing.* “

“ *Mr Moores, has had all his money stolen and driven into a hole.* “

“ *Right now – what options are available to Mr Moores? Walk away from the 10+ years invested in his specialist Masonry Restoration business? Accept that his latest best effort attempts to stabilise his life were undermined and sabotaged by the very people tasked to protect and support these processes?* “

Most Concerning is the Nature of the Attacks

As seen with the Officers at the centre of this issue, their campaign has been based entirely around attack and destruction, not a single gesture of peace, proposal or offer of resolution has been seen from these people since this issue began and which remains something of an indicator as to the nature of these people.

- Target given not a single opportunity to respond to their accusations.
- Executed their attacks in a manner that prevents their targets ability to defend themselves.
- Not a single offer of peace has been made. Every effort made to resolve the issue, dismissed.
- Of the main protagonists; not a single commendable or honourable trait has been demonstrated or where seen as honourable in its early intentions later gives way to an all too familiar pattern of deceit, sabotage and attack.
- **The hidden agenda, lies, fraud, theft, stalking, long-term campaign;**
 - There is No Higher Category of Offence.

These are very basic breaches of decency and trust. The methods employed by each of the main protagonists - seen through - start to finish and without letup brings their moral standing into serious question all of which raises more questions on whether these people live up to a reasonable persons expectation of another let alone someone in a position of leadership.

An evident lack of common-decency and basic levels of respect, demonstrated time and again by people who hold rank and some as leading members of local government and authority that have weaponized their access to government powers through their positions of employment and wielded the blunt end of the rough down upon their target at all possible angles.

This is understood to be a widely known issue throughout the ranks and the inner circles of local government / civil servants - all of which has seen their acts of misconduct publicised with an element of glorification and trivialising the act of disobedience and misconduct from the very top.

They are broadcasting a particularly dangerous message that has so far seen rise to an atmosphere of rule-breaking, cronyism and corruption as recently proven evident through the brazen tamper overtly conducted by people charged with handling the targetted victims UC account, council tax accounts and even bailiff accounts of innocent people connected to their target.

The sheer numbering acts of sabotage carried out by these people throughout the entire debacle altogether form a conspiracy and when placing PCC K Green, alongside PS E Green, alongside their Road Traffic Police Officer colleagues – it forms a complete picture.

One of systemic corruption so indecent and damaging to a person it represents an **open attack on the basic principles of a persons Right to Life.**

Each and every pillar and post compromised.

Through what is later revealed as one in a series of evidently corrupted processes.

In particular, GMP PSB Elizabeth Green and GMCA Kate Green have set the bar through their open and concerted abuse of their positions of trust. Theirs is one of a pivotal role played as part of an orchestrated conspiracy to prevent return of the stolen assets and introduce sustained hardship on their unknowing target.

Issues Through Character Assassination At Local Council & Civil Service Level

- **Cloak and Dagger attacks** carried out over years now extending to friends & family.
- **Untold number of issues yet to be faced** through the smear and hate driven by these people.
- **Anticipate the targets will never be welcome neither will the targets opinion be considered** in most corridors of local government. People connected to me will have a bigger hill to climb in that area.
- **Simple things** like; began researching steps needed to see Local Historic Landmark given official status and protection but feel, especially at the moment, it wouldn't see light of day at the local council.
- **The quality of service delivery** in the future is expected to range from minimal to non-existent as seen with Landlord who wont fix anything and only turn up to inspections.
- **Council, Landlord, Courts, Police...** Everywhere Mr Moores goes for the next 10-15 years he rightly fears he will be on the receiving end of biased treatment that he will never be able to prevent or resolve because of the sheer height of tension driven through this issue. *The smallest things can lead on to so much more and as the targets seen over the last 2 and a half years in particular, its very easy to make a mess and very difficult to clean one up.*

Recent Issues Faced and Opportunities Missed

Recent interference at UC saw what little cash that was flowing in dry up for nearly 3 months.

The immediate cash flow issues resulted in the ISP disconnecting the internet service and cancelling the contract that is fundamental to a business plan that has been 9+ months in the making.

This has added additional stress and further delayed returning to self-sustainability.

There'd been obstacles and oversights to contend with but the majority of delay so far seen through the stress and interference these people have been creating for the target, especially when Mr Moores discovered Ms Kate Greens personal involvement and connection to the PSB issues / derailing etc.

In the same month Ms K Green published her response to the complaint review, the construction company Mr Moores founded over 10 years ago (*Tameside Pointing*) had its Google and Bing profiles hacked with over 100+ images deleted of each platform.

His emails were riffled through and possible sabotage that may not have yet been discovered including forwarding different accounts copies of emails etc. to their own where they can play dungeon keeper with the targets life.

Hoax phone calls were being made regularly to the targets business.

Perseverance alone wasn't enough to work through the cash flow issues and unfortunately, by the time the target was able to pay anything towards the ISP bill, it was too late. The contract was cancelled, overheads and cancellation fees added and the targets precarious finances see him priced out. The bill now stands at four hundred and eighty something pounds which is an outrage in its own right and after 3 separate promises of a callback with an update from BT yet without success as to why its at that amount after 2 months overdue when average month is £55? The Mind Boggles.

On Friday 16th February the target missed an online meeting that could have secured some well-needed funding / help towards business costs and if successful, would have seen a modest grant of £500.00 awarded. Not enough to make any serious movement but handled carefully and spent wisely would have set the ball rolling on some of the bare minimums on the targets tick-list that's been determined as a pre-start requirement i.e *“what does the target need to make a bona-fide watertight sale? One he can profit from? One he can fulfil a commitment to seeing serviced through the entirety of the contracts lifespan? etc etc etc”*.

That grant could have taken care of the most prominent obstacles amongst many others, the recent issue of internet connectivity, which could have gone towards reinstating the cabled internet connection that was recently disconnected through the previous acts of sabotage carried out by people connected to the Officers and Miss / Ms Green and their tamper of the targets UC account through December 23 and January 24.

Mr Moores does not have time for this.

He keeps having to stop his work.

On account of: Sociopathic Demolition Experts.

The following link takes you to a video the target made for the Jobcentre with an update on progress in setting up as an e-commerce agency.

Unfortunately, the ‘nuketop’ device was taken (charming names for the targets beloved machines) amongst other devices which has put an immediate stop to progress and set the target back weeks which has now ran into months.

The target is also now without the crucial hardware needed or the specific configurations that have been painstakingly laboured on that the seized machines contained.

There is no longer a cable based internet connection in the building alongside the missing crucial pieces of hardware that were taken when Ms K Green used the targets visit to the police station as an excuse to kick the targets door in, label me the stalker and then attempt to silence me/remove the targets access to evidence. What she has done however, is substantiate/establish that there is an issue between myself and these two officers. If the targets am to walk into a police station once and be charged for harassment, the evidence in the following files would see IPP sentences being handed out.

Through the corrupt unlawful forced entries, corrupt warrant-less seizures and cash flow issues resulting from corrupt insiders at the local Jobcentre, **the entire plan has stalled.**

Progress has completely stopped and has stayed that way for months as all the machines are in a police cupboard somewhere gathering dust, while the officers go about their lives.

Issues have been seen from start to finish through these people and their baseless vendettas.

They have destroyed the targets main business (Tameside Pointing), they are undermining the targets attempts at rebuilding and they are continuing to seriously disrupt the targets efforts re-establish self-sustainability.

The following link take you to a short presentation created for the Jobcentre in January 2024 – just before incident at Orient House, Hyde.

Mr Moores imagines he now appears to be an unreliable person in the eyes of the people that offered him a slot for Friday, and the opportunity to secure a £500.00 grant? Missed.

Unfortunately – yet another incident relating to the Officers through high-level theft that has seen the target hollowed out and left in the dark throughout a premeditated plan of delay which has now run into numbering years.

Following a recent peak in tensions, the target has once again been 'shaved' down another layer with another opportunity wasted.

Mr Moores has missed the interview with Jigsaw Homes Community Project Leaders on account of the urgent nature of business that saw 4+ officers banging on his and later as discovered, his Mothers door.

This particular situation is typical of what's been going on for nearly three years now. All too often this issue finds its way to the surface in conversation. The long term exposure and sense of threat has contributed in seeing one after another opportunities missed that the targets recognise as such only in hindsight after realising the targets mentioned things that just don't exist in a normal persons world because "they haven't been targetted by murderous sociopathic officers" who have clearly done well to fly under the radar for so long however to the matter at hand; who would want anything to do with something or someone stuck in a situation like this?

No mater which way you dress it up, its obscene and unsettling with a knack of raising ones eyebrow on just the one side.

And so, the target is trying to build and maintain some kind of normality in his life but the targets nerves are shot through the constant barrage of sick and twisted attacks that just

don't stop and because these people have entirely invaded the targets world, they have also invaded the targets thought space through their relentless sociopathic predatory agenda.

Its all but disturbed the targets Zen and it often shows outwardly.

Mr Moores has messaged the Manager that booked him in for the Zoom meeting Friday 16th February and done his best to apologise. He mentioned some of this business and tried to keep it as 'sane' as possible but when things like are happening in your world and you try to tell people about it, well there goes even more opportunities down the drain.

Another missed opportunity, on top of a sabotaged opportunity, on top of a strained and difficult project, fraught with issues through the non-stop meddling and peddling that's sent me half round the bend and back again.

Solicitors Ombudsman – Wider Dimension

The latest Official response received in relation to this issue was from the Solicitors Ombudsman - received approx. 24th Jan 2024.

Unfortunately, Mr Moores is unable to draw a conclusion from the Solicitors Ombudsman's response except multiple indications that the author was under duress in their reply backed up with a 'disclaimer' about not being trained in Law to the required standard needed to make a determined decision on the matter which is, what it is.

Mr Moores feels the need to apologise to the lady that handled his complaint at the Solicitors Ombudsman r.e Stokoe. Mr Moores recognises and appreciates there are special circumstances here; he remains deeply unhappy and dissatisfied with the outcome and reasons given however he also understands *that the world is a game of snakes and ladders* and a very unforgiving place.

"Pass my regards to Miss Lysaght. Excellent gate-keeper."

No less, two days after receiving the response from the Solicitors Ombudsman which was fraught with irregularities and failed to respond to the allegations and supporting evidence presented in the case file that proved 'Black and White' corruption from the targets Solicitor Miss White that saw the target receive his first and only jail sentence, the target attended a Self-Employment session through the Jobcentre where the target was led into questioning in what formed an incident in itself.

The target is of the firm belief that Ms Green of GMCA, Deputy Mayor of Manchester and Greater Manchester Crime Commissioner has actively participated and through her position played

a leading role in a conspiracy to see through concerted efforts that have undermined numerous extensive and legitimate attempts at restoration made by the target;

- **First:** *through her connection to Elizabeth Green who initially handled the targets case at GMP's Professional Standards Branch.*
- **Second:** *through her direct handling when raised for review at GMCA.*
- **Third:** *evidence, motive and access to decision making process in relation to a complaint concerning Stokoe Solicitors that saw efforts refocussed away from GMP/GMCA in somewhat an act of peace as much an act of no confidence, for the target to then have to bare as witness and victim, this woman then clearly coming after him, derailing his complaint against the Solicitor Miss White and again destroyed another legitimate attempt at restoration; furthering the targets long term suffering in what is levels of abuse and hypocrisy that absolutely need to be challenged.*
- **Some of the evidence contained in the supporting documents folder substantiates an evident link between Deputy Mayor Ms. Green and her improper handling of the targets complaint** which she handled on behalf of the GMCA in one of her professional capacities.
- **In the Supporting Documentation, you will find evidence that substantiates a link between Deputy Mayor Ms Kate Green and Greater Manchester Police's Professional Standards Branch Officer PS Elizabeth green**, who failed to respond to the targets messages for nearly 3 months, mocked me through an automated response received after she ignored the targets umpteenth request for an update and closed her desk for Christmas.

Being left in abject poverty through the life changing theft and ongoing campaign of stalking and destruction the corrupt officers had brought about through their abuse of the targets trust and their positions of authority where they robbed the target to the point of ruin, then prevented the target from earning, stressing the target out to the point he was forced to apply for the first sick note in his life.

They had their inside man (woman) at GMP PSB long the process out. The target was then 'longed out' by Ms Kate Green.

Each and every complaint process the target has been made to wait the maximum permitted statutory response time.

Throughout each and every staged delay and at each and every stage of the complaints process the targets have been under intense attack the whole time driven through a ground-floor campaign executed by one of the **prime antagonists in the whole case**, GMP Road Traffic Officer **X1270 MOORHOUSE** and his primary co-conspirator and work partner **PC15744 GARSIDE**.

It is understood that the Officers have been manipulating the information they have been peddling such it lends absolutely zero credit to their target and instead draws a very distorted and negatively biased image of him.

It is understood there has been no mention in any of their propaganda, not a single mention of any of the numerous attempts at resolution, good deeds made in earnest or the offers of peace proposed by their targetted victim, which were made repeatedly throughout the first 12-18 months since the issue began and often in circumstances that represent an exceptionally favourable outcome for the Officers and their co-conspirators.

Instead, they drive their war machine and drive it hard.

When the target responds to their bullying and inexcusable attacks that they carry out time and again in the most vicious and disgusting manner, the targets are already driven to complete frustration and consequently draw myself in the most unfavourable light. These people seem well rehearsed in this particular dark art.

And by each and every agency that has handled the targets complaint and as later is proven one in a chain of evidently corrupted processes, in each and every instance the targets was subject to ongoing attacks as the ground-floor campaign conducted by these officers saw gangs of men and cars full of girls screaming at the target, going on for months then X1270 Moorhouse doing laps round the targets house for over 2 years, 2 YEARS, **T.W.O Y.E.A.R.S.**

Mr Moores has been held in circumstances representing that of extreme injustice and indecent torment.

The hardship and and ruin resulting from the two road traffic officers is beyond measure.

Mr Moores will never see the years stolen from him returned and despite extensive efforts and multiple, multiple legitimate and righteous requests for the return of the targets stolen wares or its value in what would represent an exceptionally favourable settlement for the people that have been targetting Mr Moores, he has instead been made the usual scape goat as a path of least resistance by the various agencies that were tasked with reviewing the case and the substantial amounts of evidence presented in support of the targets claims is turned into a riddle and this alongside the understanding that an investigating officer would have access to further evidence through their own internal systems that would without any shadow of doubt underpin every single one of the targets claims, to then see the targets cars and the targets efforts passed between this group of playground bullies as they shuffle the targets wares between them behind their backs then point the finger at the target, burgle the targets house and have him charged for harassment for visiting the police station once after having the phone put down on him twice in a row by female 101 operators, understood as a result of the disgusting slander being peddled by the exonerated corrupt police officers who so far, have gotten off scot-free.

A Full Number.

With much regret, Mr Moores recognises where he has committed acts of self-sabotage that would be fair in raising concerns about his mental health. Mr Moores feels it important that note be taken of the extreme duress he was was under not just through the Officers concerted efforts to see him utterly destroyed that was very difficult to come to terms with and generated an enormous amount of emotional distress, but in the months prior to the issues with the Officers developing, Mr Moores was already dealing with exceptional turbulence in his personal life that rendered him emotionally vulnerable at the time.

Mr Moores also feels it important that note be taken of his physical condition at the time the issues began.

In the months before meeting the woman at the centre of the stalking claims and then later the two officers connected to that woman through the female officers daughter, Mr Moores had been involved in a **very serious parachuting accident** that required extensive facial reconstruction which saw Mr Moores undergo major surgery.

Mr Moores was fitted with zygotic implants, the targets jaw was realigned and cranial restructuring which required parts of his skull be “*re-broken*” to allow reforming to a natural shape.

“ It whistled on a windy day. “

Mr Moores had barely been out of the house 5 minutes (6 weeks) before meeting the woman at the centre of the stalking claims.

Revelations made in the time since discovering Miss Durnford’s hidden agenda and violation of Mr Moores’s character indicate she had a predatory nature, as was later confirmed when Mr Moores began ‘*doing his homework*’ after discovering her connection to the stolen cars then eventually, in the January of 2022 when the Officers were suspended and the lid had blown off the whole thing, Mr Moores actually went looking for this woman on the internet when he realised it has turned into something very ugly.

Mr Moores quickly found Miss Durnford’s Instagram profile where he immediately discovered pictures made publicly available that show her on holiday with her boyfriend.

The pictures had been taken and uploaded barely 2 months after Mr Moores gave her his number, where she then initiated a conversation with Mr Moores when she text the targets phone in around April / May of 2021.

The pictures on Instagram of Miss Durnford on holiday with her boyfriend had a timestamp of June / July, barely 2 months after willingly engaging Mr Moores in conversation after he made advances that were clear in their romantic intentions.

At the time Mr Moores met Miss Durnford, he was experiencing a period of exceptional turbulence in his personal life.

Mr Moores was extremely stressed at the time and recognises that he didn't exactly paint the best picture of himself. What he remembers of it is best forgotten, however Mr Moores would like to make it **absolutely crystal clear** there was absolutely no stalking business going on whilst on the contrary, believes Miss Durnford and her pals conduct over the last few years leaves little room for doubt who is better suited for such a label when summing up.

Unlawful Forced Entries | February & March | 2024 Detail

Wider Dimension & 101 Issues

Mr Moores's home was subject to a warrant-less forced entry 20/02/24 (understood to be action from Kate Green in order to remove the targets access to evidence).

All of Mr Moores's communication devices and laptops were seized and no receipt was given or any paperwork presented for over a fortnight despite multiple requests.

Mr Moores was arrested and charged with harassment as a result of walking into Ashton Under Lyne Police Station just the once, in order to clear up the mess that one of their officers had made which saw him subject to having the phone put down on him by two separate female operatives when Mr Moores rang 101 for an update/to update on a complaint Mr Moores logged a few days earlier due to the recently heightened tensions between himself and 'the Officers' at the time.

He is of the firm belief that the character assassination campaign was the source of this latest 101 issue. The very same campaign that began in mid 2021 and peddled by the two monstrous GMP Road Traffic Officers without his knowledge, pumping away like some kind of propaganda war machine for the last 2 and a half years plus.

Mr Moores immediately made his way over to AUL police station following the 101 incidents. When he spoke to the Desk Sergeant, he said "please ask PC Garside and any of her commanding officers or any other officer that's interested to please come and speak to me, they can ask me anything they want, ive got nothing to hide..".

Mr Moores explained the crooks of the mater to the lady on the front desk she asked me to wait then 5 minutes later said she's been on the phone to a few people they're not available and instead took the targets mobile number.

No phone call came.

Instead, the very next day, Mr Moores's door was kicked off and he was charged with "harassment and criminal damage", they said.

All his work computers and development phones were seized.

Clear manoeuvring by Ms K Green in order to give herself and prevent Mr Moores, access to his devices.

Ms K Green reckless stampede into Mr Moores's home in order to remove his access to evidence and attempt to incriminate him, this daylight-robbery/burglary saw all his business equipment stolen.

Mr Moores immediately requested paperwork from the Officer in Charge PC 06604 SMITH, receiving an email in return saying "under section 32 of the Police and Criminal Evidence act they have taken the items" it went on to state that they do not need to provide me with any paperwork and the items will be returned in due course once investigation has completed.

So far, Mr Moores has had a full number done on him.

Mr Moores also discovered through the visit to AUL Police Station that the two officers that spearheaded this malicious campaign of fraud and 'multiple counts of attempted murder', have been given their jobs back.

In effect they have seen the officers in the through the backdoor, blamed their target for the last 3 years of hell and seen to it the theft of the vehicles or the harassment would never be properly resolved. They have also said "do not contact us about your problems and do not complain about the problems we brought you" – "we are making you the perpetrator in this situation, do not attempt to defend yourself".

The bail sheet received is a piece of work in of itself and ask you take a look at it and get a feel for the type of people being dealt with here. Having been kept in the full 24 hours, Mr Moores felt somewhat obliged/under-duress to agree to the bail conditions form as he was unable to mount any kind of defence otherwise.

- **Apparently Mr Moores is not allowed to enter certain Police Stations.**
- **Apparently Mr Moores is not allowed to enter Manchester Town Hall.**
- **Apparently Mr Moores is not to exercise his Democratic Right to Public Protest.**
- **Apparently Mr Moores is not to publish any evidence relating to this case.**

- **Apparently Mr Moores is not to contact GMP regarding this or any previous made complaints.**
- **Apparently Mr Moores is not to mention the wrongdoings committed against him by the officers at the centre of this issue.**
- **Apparently Mr Moores plays with toy guns in public.**
- **Apparently Mr Moores is a ‘nonse’.**

(see [bail-sheet issued 21/02/2024](#) – EV11)

=====

Very Basic Breaches of a Persons Human Rights & Right to Life

Substantiates the issue between myself the Road Traffic Officers and their
Co-Conspirators.

Now these ‘stalking claims’ are on the table,
both sets of evidence must be weighed up.

To determine who has been stalking who.

=====

2024 Timeline

24th January 2024

Received final response from Solicitors Ombudsman. No reply to the specific pieces of evidence presented. Unable to draw a conclusion from it, parts of the authors response indicate elements of duress with clear focus in some areas, on detaching ownership and subordinating themselves relevant to its duty.

[CLICK HERE](#) - EV75

27th January 2024

Mr Moores attended a self-employment session where he was subject to interrogation. The lady running the outsourced self-employment advice service through the RESTART scheme provided through the local Jobcentre, was able to quiz Mr Moores on particular matters that should not be of interest and being cast by someone who could only have received certain pieces of

information and knowledge of the situation from another source that enabled her in putting such lines of questioning to Mr Moores.

- *Clear and overwhelming evidence of an attempted setup.*
- *Ms Kate Green firmly believed to have orchestrated this attempt.*
- [SEE APPENDICES A.3](#) (*discretion please*)

6th February 2024

Increasing frustration at recent events leads Mr Moores towards public protest.

He begins authoring what would become a form of political protest and in a bid to raise awareness. He feels that given The Police are compromised and under the direction of the very people with a personal issue with him, he felt it necessary to call on the protection of the public.

Mr Moores sign-posts some main areas of Manchester however, he is careful not to spoil the area. 90%+ of the stickers went on the sides of bins and lamp posts alongside other similar types of adverts placed by other people previously.

The stickers themselves are made of paper and easy-peel glue which eventually washes away after a few days of rain. The labels are produced using an ink-less thermal paper printing system and designed with a short lifespan in mind and not to leave any marks.

7th February 2024

Send an email to Inspector Buchanan re intended action.

Inspector Buchanan handled a complaint Mr Moores made to 101 some 6 months+ prior when his Business accounts were hacked and his vans work suspension destroyed.

No response received although activity around Mr Moores's home address leads him to suspect there is movement on the ground floor relative to this latest message. Mr Moores attempts to set out on the Friday (9th) but the weather was particularly blustery. Mr Moores decided instead to call down another day.

Focus remained on raising some awareness as a means of gaining some form of protection through the public and secondly, in attempts to make belligerents aware that they are not untouchable.

9th February 2024

Mr Moores send multiple emails to GMCA's central office. He later attends their Offices on Oxford Road the following week. Mr Moore makes at least four separate telephone calls to the number given to him when he attended their Offices over the course of 7-8 days. Weighing up

options, felt the need to raise awareness was key and believed to be the case throughout however didn't want to go to the top floor straight away and always done best to keep things civil.

11th - 12th February 2024

Mr Moores again exercises his right to protest in the best form he could muster. He signposts many hotspots of Manchester with a notice, taking care not to spoil the area.

- [CLICK HERE](#)

14th+ February 2024

Officers from Manchester Town Hall attend Mr Moores's home address and also his Mothers address. No paperwork is left and the circumstances surrounding their visits and different groups of lead me to suspect all may not be quite above board.

Different groups of Officers are seen to be frantically 'hunting' Mr Moores.

It was clear Mr Moores's act of Political Protest by stickering Manchester City Center with a Warning about GMP's Evidently Systemic Corruption, has inflamed some of the targets of it's exposé.

- [CLICK HERE](#)

17th February 2024

Report logged with 101 about the unannounced visits made by numerous different officers, including the targets concerns around the legitimacy of their action/intentions.

19th February 2024

Phone put down on Mr Moores twice by two separate Female 101 Call Centre Operatives. At this point Mr Moores is very unhappy. It's nearly 3 years on and he can't even ring the Police because of the Slander. Mr Moores immediately makes his way over to Ashton Police Station and raises the matter with the Desk Sergeant – a woman that's worked on the Ashton Under Lyne desk for many years. She is understanding and listens to the issues Mr Moores had been having and the recent episode of having the phone put down on him twice.

Mr Moores asks the lady behind the front desk *"can you please ask PC Garside or any of her commanding officers or any other officers that interested to come and speak to the target, they can ask me anything they want, the targets got nothing to hide"*. The DS goes into the backroom then 5 minutes later calls him into the enclosed desk area and tells Mr Moores *"no one is available right now, Moorhouse isn't on till later, can I take your number and someone will give you a call back?"*. By this point, Mr Moores's jaw is on the floor. He'd been kept in the dark about everything, his life at this point had been in ruins for over 2 years straight with non-stop attacks throughout. Mr Moores returns home with a very real sense of shock.

The next day, Mr Moores receives a knock at the door.

20th February 2024

Following the targets visit to AUL police station the previous day, Mr Moores receives a knock at the door.

On the initial knock, PC Derbyshire repeatedly told Mr Moores “we just want to speak to you, open the door”. Mr Moores suspected they had other intentions as there were 4 officers in attendance which was out of the ordinary and it was also strange that he’d not been contacted first.

Due to Mr Moores’s suspicions and the recently heightened tensions surrounding this situation, Mr Moores told the officers he cannot trust them and that he would only open the door if a warrant was present. Mr Moores also told the officers that the targets was in the process of seeking legal advice.

Mr Moores told the Officers, as is true, that he’d always answered to bail and what reason was there for the unannounced visit.

The Officers tone eventually changed to “*open the door or we’re going to break it down*”.

All of a sudden, a TRAFFIC UNIT turns up and brings the tool for beating doors down. They come in, arrest Mr Moores and take all his laptops and phones. Mr Moores is a ‘techy’ and uses that equipment for business, hobby and development ideas.

Most important of all, they took some of the main computers needed to operate his latest business venture that was 9+ months in the making and already behind schedule through the constant headaches these people were making for him and the latest issues with U.C sabotage resulting in cash flow problems and the cancellation of the cabled internet connection that is fundamental to his latest business ventures core operating requirements.

Mr Moores feels he is being ruthlessly targetted by these corrupt Police Officers.
He has seen very little if anything but problems, destruction and hate
from the people at the centre of this issue.

- [CLICK HERE](#)

21st February 2024

Following the warrant-less and unlawful forced entry, Mr Moores’s arrest at home and then seizure of his personal belongings, he is then held in Police Custody and interviewed after being held for 22 hours in a cell. The only break during that time was when Mr Moores was woken and subject to an ‘extra-curricular’ inspection by a mental health nurse.

Mr Moores’s interview was conducted by young PC 17820 posted at the Manchester Town Hall Extension along with his female colleague who is not native to the British Isles, a statement of

observation made simply due to the language barrier that enables malleable interpretations of law to be carried out.

No seasoned detectives to be seen, Mr Moores doubts they'd have had anything to do with it.

Certain aspects of the interview process held 21-02-24 at GMP's Pendlebury Station, of interest;

1. **PC 17820 brought a Laptop into the interview room and was clearly in need of some prescription eye-ware whilst sourcing his questions from it.**
2. **The red light indicating 'listening-in', was lit up - throughout the interview.**
3. **There was a CCTV stream with live preview monitor in the interview room itself – this was covering the interview – understood as being monitored by K Green as she conducted herself through the willing/unknowing pair of interviewing, young Police Constables on the Laptop.**

In questioning, PC 17820 puts it to the target - Mr Moores, that he has been stalking the two officers. Mr Moores then begins to tell the room, the trail of events as they unfolded from the beginning in around April /May 2021, making it up to March 2022 and the coercion of his defence solicitor 25th March 2022 at Manchester Magistrates Court.

The interviewing Officer(s) didn't need to hear any more.

Mr Moores was later released with the most astonishing bail conditions.

Scrutiny of the information contained in the 21/02/24 bail sheet was very distressing to Mr Moores.

It made clear, the official stance GMP had taken towards him in respect of this matter.

That they had made him the scape goat, seen the offending officers in through the backdoor and then thoroughly explored then jumped on the first opportunity to criminalise Mr Moores, gain access to the targets personal devices in a bid to silence me and remove the targets access to evidence.

At this stage, Mr Moores feels he has exhausted all potential paths available that would see this matter resolved amicably.

→ **RING 101** →
→ **IOPC** →
→ **GMP PSB** →
→ **GMCA** →
→ **SOLS OMBUDSMAN** →
→ **VISIT GMCA OFFICES** →
→ **PUBLIC PROTEST/a/b/c/d** →
→ **VISIT AUL POLICE STATION** →

Mr Moores believes he has followed protocol as he understands it and kept any outward advances as '*clean as possible*'.

Mr Moores suspects that some officers would disagree however that will likely remain a difference of opinion, and certainly to those with limited insight and selectively informed.

It has all become very clear to Mr Moores that he was kept in the dark and on the breadline throughout what was an orchestrated manoeuvre of delay and backdooring the officers in.

"I'm sure everything will just.. blow over.."

Following Mr Moores's one and only visit to AUL Police Station immediately after the 101 incident, he immediately discovered that the officers have been given their job back.

So instead of bringing these corrupt Officers or any of their co-conspirators to justice after such perverse and particularly savage long term commitment to a campaign of intolerable indecency and hidden agenda, they instead have him arrested, burgle his home and seize all his computers and phones in circumstances that strongly suggest an premeditated attempt to silence him, slow him down and possibly destroy evidence and prevent his self-defence.

The Officers from the Manchester Town Hall extension that were instructed to carry out the forced entry were then instructed to steal an ornament from Mr Moores's home which was then used to draw an unfair and biased image of his character when it was stated on the Bail Conditions that the seizure of this "toy gun" and the wording of the imposition set against it was "not posses imitation firearm in public place" and "to prevent further incidents" – which is no less than a false charge and misleads from the situation entirely.

They have kicked Mr Moores's door off over a sticker?

Mr Moores has always turned in for bail.

It seems highly unlikely young PC 17820 or PC 06604 would have seen fit, the need to make a forced entry to the targets home after discovering a 4x3 sticker on one of the phone box's near their offices.

Given PC 06604 Smith and PC 17820 work at the 'Manchester Town Hall Branch', the same building Ms K Green works, it seems a rather coincidental arrangement.

Mr Moores is of the firm opinion that Ms K Green has used the Officers stationed local to her as pawns in her attempts to incriminate him, tie him up with problems in a bid to prevent him exposing Ms K Greens and her long line of co-conspirators wrongdoings or at the very least, buy her some time while she digs up dirt on Mr Moores wherever she can find it.

And so her latest prey; the Officers who appear to be Ms Green's latest exploit. Their undoubtedly '*malleable interpretation*' of the law as illustrated by Ms Deputy Mayor Kate Green in her superior rank and credentials that have enabled her in taking full advantage of the young and somewhat impressionable Officers where she has then used them as a vehicle in which to conduct her illicit personal bidding.

After nearly 3 years, and now recently seen as a declaration of official stance by GMP through commandeering of its label by Ms K Green last week when she is understood to have directed the particularly young and impressionable PC 17820 and his female work colleague who's second language is English, into conducting an interview following a warrant-less and unlawful forced entry directed by DI Sheil and/or PCC Green and undertaken on instruction by PC 06604 Smith.

A forced entry which marks on their balance sheet.

And so, is it to be believed that young PC 17820 or PC 06604 Smith would be so furious about this 4x3 sticker such it should require the targets door being kicked off?

Would young PC 17820, or PC 06604, or PC 16821, or PC 06519, or PC 14435 from the Manchester Town Hall post have had the authority to dispatch a van with 4 officers then immediately call in a 4x4 road traffic unit with a door ram and execute a warrant-less entry of a private dwelling/home address?

Would PC 17820, or PC 06604 or PC 16821 be hell bent on taking all the communication devices and leaving no receipt?

Why was 06604 Smith the OIC at the first warrant-less forced entry yet PC 16821 who is also not indigenous to the British Isles, now being stated as the OIC?

Why was PC 17820 conducting the interview from the first forced-entry and arrest, instead of any of the other officers that actually attended and undertook this particular forced entry?

Someone is managing this situation. Certainly not any of the Constables or their DI.

“ Who is directing these people? “

Their Commanding Officer DI Sheil, claims Ms Kate Green has had absolutely no connection or insight in this situation whatsoever.

Yet, at the first interview conducted by young PC 17820 and his foreign counterpart, the case-file built for this interviewing Officer which centred entirely around a single document that had the title ‘APPENDICES’ .

That document came from a particular revision of a report that was sent to the GMCA in 2023 when raising the complaint for review – that PCC Ms Kate Green personally (mis)handled.

And all this, over a sticker on a telephone box?

No.

But the information the sticker contained, and who it was about?

More than likely.

Ms Kate Green – who has made herself a nemesis of Mr Moores for reasons not quite fully established at this point.

=====

**Worst of all – this woman has seen to it GMP
is now of the official opinion that the
targetted victim is the stalker.**

=====

What a top to bottom, crème del la crème spectacle of a stitch up. If Mr Moores would've had any idea these people would turn it into a situation like this and be forced to deal with one lunatic after another, he'd would have been very careful not overlook any evidence, which was something the repeatedly made the mistake of doing in the earlier and crucial stages when this issue began to develop back in 2021.

The following is based on the information contained in the Bail Sheet issued to me following release from custody after the targets arrest following forced entry to the targets home.

Now where would the young and impressionable PC 17820 or PC 06604 Smith or PC 16821 or even DI Sheil have gotten the idea of making statements on the targets bail sheet that say:

- **Apparently Mr Moores is not allowed to enter certain Police Stations.**
- **Apparently Mr Moores is not allowed to enter Manchester Town Hall.**
- **Apparently Mr Moores is not to exercise the targets democratic right to public protest.**
- **Apparently Mr Moores is not to publish any evidence relating to this case.**
- **Apparently Mr Moores is not to contact GMP regarding this or any previous made complaints.**
- **Apparently Mr Moores is not to mention the wrongdoings committed against me by the officers at the centre of this issue.**
- **Apparently Mr Moores plays with toy guns in Public.**
- **Apparently Mr Moores is a nonse.**

Its more than fair to assume at this stage that these conditions were written by Ms K Green also given Mr Moores heard PCC Ms Kate Green talking at the custody desk just prior to his release on bail, whilst being held in a cell.

Scrutiny of the Custody Desk CCTV from Pendlebury Police Station approx 15:00 ~ 16:00 :: 21/02/24 will show Ms K Green conversing with the Desk Sergeant.

I've heard Ms K Green speak at public events in the past and recognised her distinctive voice.

In the initial conversation between DI Sheil stationed at the Manchester Town Hall and Mr Moores, it was stressed to DI Sheil by Mr Moores, that there was another side to these 'harassment' charges that had been put against him.

In Mr Sheil's email sent 14th March 2024, he made it clear that the investigation would be impartial when he stated: *"any evidence to help the case weather that be to assist the prosecution or assist your defence"*.

Mr Moores then opened an email yesterday, sent by Mr Sheil 18th April 2024 that stated: *"The case is with the CPS and they will review this to establish if there is sufficient evidence to proceed"*

with a charge against you.”. Mr Sheil has not asked Mr Moores a single question. Mr Shiel has failed to properly investigate.

The dynamics – inline with the wider scope of issues faced over the years; is an all too familiar indication that yet another unbalanced improper investigation has been undertaken. The overwhelming amount of evidence provided to Mr Sheil in support of Mr Moores’s claims – versus whatever whimsical evidence that could possibly be drummed up by these people in order to support their agenda set to make Mr Moores the the perpetrator in this matter is so far from any reasonable persons logic that it can only be determined Mr Sheil does indeed hold a belligerent stance towards Mr Moores, and that he is acting in collusion with the superior ranking officer stationed in the same building as him, that has been evidently implicated in serious corruption which has seen Mr Moores targetted through personal vendetta.

DI M Sheil has failed to ask Mr Moores a single question in relation to his counter-claims.

DI Matthew Sheil:

- Already proven himself a proactive liar – when he told Mr Moores without prompt – that Ms K Green was not involved in the situation.
- Failed to declare the conflict of Interest between himself and Ms K Green.
- Forgone multiple opportunities to Right this situation.
- Ignored the substantial amounts of evidence provided to him by Mr Moores.
- Ignored Mr Moores’s pleas to turn whistleblower.
- Failed to properly investigate.
- Failed to undertake a Duty of Care in the most horrific circumstances.
- Targetted Mr Moores.

Mr Moores’s bail was set to his Birthday 21-05-2024.

Same Old, Same Old.

He was then contacted the day before his birthday where he was expecting closure on this matter the following day, only to be told his bail had been extended another three months.

RECENT OBSERVATIONS

The timing of the attacks last year in August and September, just after Ms K Greens report which is a brutal yet somewhat well rehearsed textbook act of corruption.

Then all of a sudden an increase in hostile account manipulation issues begin sprouting here there and everywhere.

“that’s my pal, he’s my pals – pal, pal.. not what you know but who you know..”

GMP Attitude

The whole response on the ground floor from the local officers of GMP that have acted in relation to this issue are characterized for the most part as what can only be considered as the maddest dystopian new-era-council estate family you've ever come across.

There is no other group, gang, unit or otherwise that can and will, straight up pinch your cars in the street in back-to-back targetted hold-ups, call you a 'nonse' on a countywide scale in secrecy, then try to bully and intimidate the life out of you for years and years, bring everyone to your home address, kidnap you when you order a taxi then railroad you into jail, set a million and one members of local authority about you.

Who then have you charged and point the finger as being the harasser/aggressor as result of walking into a PUBLIC POLICE STATION ONCE to clean THEIR MESS UP.

Regardless of the fact Mr Moores had groups of Officers banging on his door for days in the most questionable circumstances from the 13th February up until the 17th of February on the Saturday at 6:30pm when two plain clothes female officers buzzed his apartment intercom with their white trainers on in attempts to coax him out, then later discovering they'd been harassing his Mother at home on Valentines Day. **Having decided 'enough was enough' and making his way to AUL Police Station to clear the matter and table the issues**, triggered by the back-to-back 101 incidents – doing their job for them, but *they* were the trouble causers!

They then use Mr Moores's attempts to defend himself and weaponise his act of peace and attempt at reconcile, and such action only taken as a result of having the phone put down on him twice by two separate female 101 operatives, instead, the next day forcing entry to his home, taking all his communication devices and business machines, then *stealing* two ornamental / toy guns that were inside his home and stating on the bail sheet "not to possess a toy firearm in public – to prevent further offences" – characterising him as some sort of menace / lunatic as though he goes around in public waving toy guns about.

The bail sheet says a lot about the nature of the person being dealt with here.

Immediately after Deputy Mayor Ms K Green's exoneration of the outrageously corrupt Officers at the end of July 2023; the targets ex-partner Miss Catlow was targetted by an insider at Tameside Council who managed to have rubber stamped documents drawn up at Tameside Court demonstrating clear weaponizing and targetting of innocent people through these Officers widespread sociopathic manoeuvring.

Then again, immediately after Ms K Green's exoneration and firing signal shot, the targets ex-partner Miss Catlow was then targetted by a Bailiff understood to be connected to the woman at the centre of the stalking claims, Miss Durnford. This Bailiff from Marston's along

with an insider at their central Offices target Miss Catlow and bully her out £245.00 whilst she was on holiday including threatening her with arrest at the airport on her return if she didn't pay there and then, where they then stole her spending money.

Immediately after Police and Crime Commissioner Ms K Green's exoneration of the hysterically bent Officers; the Village Lynching Mob was back at it and this time pulling strings since Mr Moores's personal information had become common knowledge through the Officers indecent handling and the whole thing seems to have turned into some bizarre paradoxical reality TV show with every man and his dog queueing up to have a go.

These people – did very bad things.

- They have continued in carrying on doing bad things.
- They have done everything they can to see their bad things come to fruition.
- They have done everything they can to see maximum damage is inflicted on Mr Moores.
- They have done everything they can to hide their attacks on Mr Moores.
- Mr Moores has now been officially labelled as the 'aggressor / stalker' in this situation.

A situation that has seen a persons life destroyed through misidentification by certain GMP Officers and then later, failure to own up to that mistake and see the situation restored.

Instead saving themselves, leaving their targetted victim with nothing but a fight for life on his hands.

They tried to murder someone's character.

There is no social crime greater in its destructive power nor surpassed in level of indecent slur.

Delivered through concerted efforts of people in the utmost position of power and trust.

**The weight of political position and seat of power held by these people;
brought down on 1 man.**

Mr Moores is very lucky to be alive and free so far.

Why has nothing been done to put the situation right. There is a pink elephant in the room that is being blatantly ignored whilst every attempt to again destroy Mr Moores, now being conducted openly and officially through GMP.

IT IS DISGUSTING.

They have considered nor given not a single opportunity to resolve this situation.

Everything has been full on attack.

Mr Moores has either been kept in the dark, lied to, sabotaged, manipulated or attacked.

Serious suspicions surround the true nature of these people. There is now a firm belief that the Officers at the very centre of this issue, PCX1270 and PC15744 are in fact – **murderers**.

The Officers appear to be operating a dark and sadistic – **Selective Scam**.

=====

PENULTIMATE REVIEW

Back in 2021; by the time Mr Moores realised what was going on, both his cars had been **stolen** through the corrupt road traffic Officers 'friends' at a specialist vehicle crime unit, GMP's 'Operation Wolverine', in particular a certain PC8820 BATESON., months after the theft of substantial life changing value, the officers were back outside the targets house thrashing up and down the road everyday.

They were out to complete the absolute destruction of a person.

They had been peddling disgusting false claims the targets was a pervert for over 6 months.

They'd publicly divulged Mr Moores's home address through Google Maps by placing a marker over his home address that said "*COUNCIL HOUSE*".

Brought numerous cars filled with young men connected to the female officers daughter, young lads that returned in their own time but did not have the guts to engage me. the targets cat was spat on during one of their many visits where they once again turned up heavy handed and left empty handed.

The Officers; in particular as it is understood – PC15744 GARSIDE and her Daughter have made multiple, multiple attempts to have me made homeless by sowing decent at the targets social housing landlord (see evidence folder March 2023) where the targets housing officer was later revealed to have withheld information from Mr Moores and applied to court in secrecy where she successfully obtained an eviction warrant. All awhile telling Mr Moores absolutely nothing of it for many weeks during which time numerous conversations between Miss Gharda and Mr Moores took place over the phone regarding the targets rent account, again, absolutely no disclosure given by the housing officer.

When Mr Moores contacted that particular Housing Officer to ask why she had applied for an eviction, as it was completely out of the blue the day the paperwork from court landed in the targets letterbox, the housing officer Miss Gharda immediately bursts into a frenzy where she begins making **outlandish statements about the targets conduct** in handling of the rent account. Issues that had not been mentioned until that moment. Mr Moores and Miss Gharda got on quite well until that point.

These officers and again, in particular as it is understood – PC15744 Garside and her Daughter.

They are believed to be the primary antagonists that have seen interference at the local jobcentre and issues with Tameside Council.

The most recent of these issues saw December 2023 and January 2024's payments improperly blocked without good reason and clear sabotage of the account by an insider.

A mandatory review was sought and a few days ago the targets received the first payment in well over two months and coming up a quarter of a year. the targets Christmas was particularly grim, brought on by people who are unfit to serve. the targets need to claim social payments in the first place; brought on through the theft of substantial asset value followed by a sociopathic long-term campaign of terror and hyper-aggression that was very difficult to come to terms with as the targets tried to rationalise with these people.

What little money that was received from the Jobcentre or moreover, what was left after deductions from a £6,000+ bill where it seems GMP has charged Mr Moores for the theft of his vehicles, what was left over from those deductions was then also stolen by these people.

Theft on top of Theft; where the money that was drawn from the welfare state as a direct result of being defrauded by two hysterically bent road traffic police officers.

Driven into ruin through every type of attack conceivable except physically attacking Mr Moores.

Their initial covert and premeditated manoeuvring seen carried out over a series of incidents spanning many weeks which saw the officers successfully defraud Mr Moores out of nearly Twenty Thousand Pounds worth of vehicle asset.

Life changing value - in a series of acts that merit nothing less than immediate custody.

To this day, the two organised hold-ups remain the biggest acts of street robbery Mr Moores has ever been subject to.

Two Years after stealing two of Mr Moores's Cars, calling him a 'nonse' on a countywide scale in secrecy, the destruction of his sense of safety at home, railroading him into a jail cell in his first and only ever custodial sentence, spreading misinformation within the jail amongst inmates that he was a 'nonse' (attempted murder.), interfering with 2 individual defence solicitors that both acted against him in the court room, interfering with probation who constantly tried to manoeuvre him into a position that would see him face further punishment and prolong his exposure to their sadistic attacks that went on for over 12 months, then derailing multiple, multiple legitimate attempts at return of the value of the stolen assets even after they realise Mr Moores obviously didn't stalk anyone, interfering and sowing decent at his Social Housing Landlords Office which saw his Housing Officer obtain an eviction warrant on the sly which Mr Moores had to defend against in court and then raise a complaint with the Housing Landlords upper management. All awhile, PCX1270 continued doing 50+ laps a day around his home address the whole time for OVER TWO YEARS, PC15744 Garside plus Garside Jnr. plus Snow White (Miss Durnford) plus The Seven Dwarfs (Durnford's Boyfriend + pals) plugging away at their targets character on the sly, then two plus years on here were and in the last 6 months its only gotten worse with even bigger and more powerful and connected ruthlessly incompetent people getting involved setting an example that the other bored colleagues think they can follow suit on.

Over Two Years later we're then into August 2023; they hack Mr Moores's Business Google and Bing accounts then delete over 100+ images off each platform signalling the destruction of the only record Mr Moores had that proved his work history and supported his character. They destroy the suspension on his work van and and report him to the Jobcentre for 'working on the side' who immediately begin making headaches for Mr Moores when he attempted to bring some money in

after their years of destruction, by allowing the his Cousin with 15+ years experience, to take control of the company Mr Moores founded over 10 years ago (Tameside Pointing).

Now coming up Three Years on – they have managed to infiltrate and corrupt GMP's Professional Standards Branch which saw a certain Miss Elizabeth Green *kicked off the job* for ignoring Mr Moores for nearly 3 months and then clearly mocking him in an automated response. Mr Moores then raised the complaint for review with GMCA, who takes it up and who is handling Mr Moores's case at the GMCA? The recently *selected* Member of the Committee; Greater Manchester's Police & Crime Commissioner and Deputy Mayor of Manchester – Ms. Kate Green.

Mr Moores does not receive a response from Ms Greens Office for 5 months and 28 days after submitting his request, despite multiple requests for an update.

The final response received from Ms K Green on behalf of the GMCA was nothing but another farce as suspected by Mr Moores yet, at the time he was without proof however, through the sheer incompetence of GMP's Professional Standards Branch Officer Miss Elizabeth Green and Deputy Mayor of Manchester Ms Kate Greens handling/blundering, the target was accidentally included in an email thread, the dynamics of which saw an evidential link established between Officer Green at GMP PSB that was *Kicked Off the Job* and Ms Kate Green who made Mr Moores wait 5 months and 28 days for a final response, the details of which weren't even plausible and clearly nothing but a whitewash by a woman that's been in the job 5 minutes and seen to it Mr Moores's £18,000.00 worth of vehicle stock has been permanently lifted and the very serious question mark reinstated over Mr Moores's name.

seen to it the Greater Manchester Police now dedicates a sizeable amount of its time and resources to a publicly funded rabble of lawless modern-day brown-shirts and glory-hunters reverent of the Colosseum games:

With Ms Kate Green now firmly positioned through her role as Crime Commissioner and a tapestry of intimidating credentials; the GMP banner now seemingly under her full control.

K Green has made full use of her unbridled access to GMP's professional privilege and direction of public statement and with that, public sentiment – in order to further drive her attacks against Mr Moores.

Deputy Mayor Kate Green is now harbouring a multitude of criminals that have all been evidently implicated alongside Ms Deputy Mayor Kate Green in a conspiracy set to entirely dismantle a person through the political pressure, police bullying and advocacy of blatant misconduct overseen throughout Ms Green's short reign as Greater Manchester's Police and Crime Commissioner.

T.w.o Y.e.a.r.s L.a.t.e.r – absolutely terrorized by these murderous lunatic officers, Mr Moores just about defends himself, they have been coming round the targets house for months and months now years, done everything they can to destroy Mr Moores in their honour-less and disturbing campaign that is without doubt the most evil and sociopathic manoeuvring ever witnessed from a person / group of people. This Kate Green turns up on the job and within 5 minutes she is toying with someone's life in a way that is mortally dangerous.

It's corruption on a monumental scale.

Mr Moores has it that just last week, that Dep Mayor stitched him up yet again. Interfered with his complaint at the Solicitors Ombudsman when he drew the short straw and turned his attention to Stokoe Solicitors and Miss Helen White who was coerced by a certain Miss A Dean of the National Probation Service at a corrupted hearing 25th march 2022 @ mmc.

Mr Moores submitted BLACK AND WHITE evidence of corruption and it didn't even get mentioned in the response just read it for yourself and see what's been going on here (look at evidence folder make your own mind up).

Two days after receiving the final response from the Solicitors Ombudsman that is impossible to draw a conclusion from, Mr Moores turns up to an appointment through Jobcentre. Mr Moores arrives after nearly 3 months without a payment from them but he turns up anyway so not to waste peoples time and keep everything in order and what happens? Mr Moores is yet again put in a position where they clearly intended on setting him up!

When Mr Moores arrived at a self-employment session arranged through the jobcentre 27th January Orient House, Hyde (RESTART Scheme), within 5 minutes of arriving Mr Moores was being questioned in a scolding manner by two women that work at the building. Then Mr Moores is drawn into questioning around matters related to issues surrounding the corrupt Police Officers.

Mr Moores was that wound up, he didn't even bother to consider how they'd managed to get into that line of questioning and the fact the woman asking him knew nothing of the situation but was able to ask him questions relating to it. It was only after the session, in hindsight Mr Moores realised she knew too much. Nice woman though tbh, no hard feelings. But back to the matter.

Their target was asked all sorts of questions, one he specifically remembers at start, prior to rant;

““ had a good Christmas?.. Plenty of food?.. Over indulged?.. ““

[See Appendices – A3](#) (DISCRETION PLEASE)

Mr Moores has it that the Deputy Mayor Ms Kate Green was waiting in another room or at the very least, listening in. Mr Moores has it that Ms Green had gotten wind of his complaint at the Solicitors Ombudsman that implicated her as evidently corrupt. Mr Moores has it that Ms Green had interfered with his complaint at the Solicitors Ombudsman by pulling a few strings/favours.

And now, based in the amount of circumstantial evidence and the fact the woman from the self-employment place that conducted his interrogation was able to put certain lines of questioning to him, Mr Moores believes that Ms Green once certain, was planning on *taking him for a ride* and dancing on a 'Butterbean' by taking one of the issues Mr Moores mentioned in his Complaint with the Solicitors Ombudsman, about the latest issues with corrupt civil servants interfering with UC payments and sabotaging the account.

The target also recognised another woman that was in close proximity on the targets right-flank throughout the whole show. Mr Moores recognised her, she is known to have worked for the Police for many years (pleasant woman - offered Mr Moores a brew later).

Or how the Woman from the Self Employment Advice Firm was able to lead Mr Moores into an interrogation and given she had a full career in the army, she was quite well rehearsed at it.

It was only when he got home and pieced it all together - Mr Moores thought

“ omg its that Kate woman... “

“ the cheeky .. *bleep* ”.

So Ms K Green, a judge for 10+ years they say. Mr Moores imagines she would have took him to the cleaners on the back of what is a drop in the ocean in comparison to the wider scope of issues faced not just through her but in the years previous and what seems to be ever extending itself to the next plucky have-a-go hero.

Instead, Ms Green arrives and her plans are foiled through the indiscriminate and uncoordinated targetting that the group of Murderous Karen's find impossible to organise. Their frenzied and all too familiar patterns of attack which has seen them blindly scratching the targets eyes out without even asking a single question or allowing him to defend himself.

And so Ms Green and her relevance to this Solicitors Ombudsman report; Mr Moores' take on it is she's got wind of this report through her 10+ years as a judge, come straight off the phone to one of her inside connections who's informed her and at the same time got her a result, then she's no doubt been straight on the blower to another one of her contacts who's got access to info on the Jobcentres systems and found when the targets next appointment is and because bent pal #90210 at AUL Jobcentre hasn't made the entire group of Murderous Karen's aware of the sabotage of the targets Universal Credit account throughout December and January, she has walked into that situation equipped with the wrong information.

So some guy called Phil at AUL JC who failed to redact his moniker in one of his account sabotage manoeuvres has done me a huge favour by demonstrating first hand..

"THERE'S THAT MUCH CORRUPTION GOING ON THEY DON'T EVEN KNOW WHAT'S GONE ON THEMSELVES"

I firmly believe Miss Dep Mayor had been told im not sanctioned. She's thought she's hit a good number and set about coming down to take this one piece of information that was in the targets solicitors report that she had just derailed and then try and make Mr Moores into some sort of public joke which was then stifled through the revelations made surrounding the targets UC account and the 4+ minute rant that followed soon after.

Ms K Greens bluff was never attempted, with the Green camp taking a decisive blow that day.

Unfortunately, we have to return to the grim aspects of this situation that are of paramount concern.

If the targets understanding of the 27th January Self-Employment Session Stitch-Up is true, which the targets 99.x% sure is true. What this clearly demonstrates is Ms Green is utterly compromised and she has somehow managed to justify setting me up after everything that's gone on?! Oh what;

“how dare he attempt to defend himself?”

Exactly the same self-serving over entitled attitude as them *Murderous* Road Traffic Officers.

Note to reader: There is absolutely no limit to what these people are willing to do in order to achieve their mindless destruction of a person who they targetted based on mistaken identity and which was confidently understood to have been realised by these politicians and police officers but instead of making good on their attacks and attempts to destroy a person that they were wrong about, **they carry on.**

Coming up three years now and still bang at it.

Mr Moores is now fully committed to seeing this issue brought to light and dealt with properly.

The Officers and their co-conspirators have been seen to have targetted innocent members of Mr Moores's family and people who have witnessed the corruption are now having a pop, Mr Moores feels the situation is highly-volatile and on the current path, will not end well.

Mr Moores feels he now owes it to the innocent people connected to him that have been targetted through this, people that are in no way connected to the ongoing in this situation.

It should not be seen unreasonable that compensation be due in light of the horrendous destruction of a persons life at the hands of these people who've weaponised their access to police and government powers in order to drive a highly indecent and predatory campaign against one person as part of a short sighted hyper-aggressive personally motivated ego-centric agenda.

Their targetted and evident campaign of attacks seen through their irresponsible and dangerous mismanagement has been a mainstay throughout the entire legal process, complaints process and even the final review process, top to bottom took for a ride.

The attacks and co-ordinated 'trap doors' altogether form a conspiracy, the theft of two motor vehicles from August 2021, the long term and highly indecent slander and subversive social engineering spearheaded by the two road traffic officers. The derailing of every single legal process the targets was subject to.

They have destroyed Mr Moores's life in as many ways as you can shake a stick at.

Mr Moores has been stuck in the house for over two years now *'tearing his hair out'* with the situation.

He feels that every time he tries to rebuild, its smashed up or undermined because some gangland Police Officers that seem to think they're hard done by after trying to murder him on the sly, rob him of his cars, stalk him for what's amounted to nearly 3 years and drag his name through the mud in the most devious and disgusting manner then prevent him access to basic legal services after they hijack the entire setup.

He feels he has done what he can but they will not stop, he cannot get them to stop and no one has reeled them in.

He firmly believes that if the two GMP Road Traffic Officers didn't get involved in the beginning, none of this would've happened. No stolen cars, no Jimmy Saville's, no Gangland Officers swinging round his neck, cat not spat on, Mr Moores still *'loving life'*, *them* still doing their *'hate thing'* but no ones dead or been the subject of an attempted murder, yet.

Instead, the very people tasked to prevent such issues have instead turned their professional training and access to police resources on their chosen target in somewhat a highly predatory 'selective scam' approach to Policing.

~

Once 'locked on' they carry out their indiscriminate and relentless attacks and as seen over the course of what was six, then eight, then twelve, eighteen, now going on over 30+ months coming up three years, has bared witness to a very different face of GMP and a much darker side of its labour force.

SUMMING UP

There was no spectrum in the Officers approach to Mr Moores. All that has been seen from the Officers since the issue began in 2021 is an all-out assault, Using every possible type of disgusting attack they could conjure.

The two Road Traffic Officers were seen to ask Mr Moores about his family at their initial meeting 6th August 2021 – where it was established that Mr Moores's Father had immigrated to Spain many years prior and that his Mother had been very unwell for a number of years.

With no indication whatsoever that shows the Officers tried to speak to Mr Moores, warn him, or allow him to defend himself otherwise in a way that could resolve the situation or at the very least, see them carry out their professional duties correctly.

On the contrary;

a mountain of evidence underpins the notion that the Officers targetted Mr Moores in a most vicious and predatory manner.

A manner that saw Mr Moores made a sacrificial element of the perverse Police Officers ego-centric god-complex which led to their fanatical blood lusting pursuit of Mr Moores, and no better a spectacle of perverse corruption and murderous megalomania than example can be set by.

It seems their delusional fantasy of social glory was set to be achieved by standing on the corpses of the very people they were being paid by and trusted to protect. Using that position to enable them to carry out their heinous and sickening crimes seemingly against people the Officers determined, could not defend themselves.

Victimisation of a person though the highly indecent mobbing and multiple, ongoing best effort attempts to ‘murder’ a persons character in the most unspeakable manner, which has so far destroyed their targets life and future in the area he grew up and wanted to stay.

Mr Moores feels it imperative that he leave the area as soon as possible. His safety, well-being and future are all dependant on that.

He feels certain that in no way whatsoever can this situation be resolved without financially compensating Mr Moores so he can escape the wretched clutches of these murderous sadists.

=====

Its important to note: *Operation Wolverine had already admitted liability* when they sent a form to ‘reclaim value from sale of vehicles’ (see evidence folder) over two years ago.

Mr Moores did not want the value of the cars, he wanted the cars.

Second to that; Mr Moores did not trust these people as they had clearly fiddled him out of the vehicles, hence the complaint in the first place, so why was Mr Moores being forced to negotiate with terrorists in a situation that would no doubt see him robbed again and this time, legitimise it.

So when Ms Kate Green claimed that there was absolutely no connection between the officers and the targets stolen cars and no complaint to be upheld, by this point we are over 18 months into another chapter and Ms Greens lack of insight as an indicator to the efforts made in asserting the facts for herself instead goes on to ‘rewrite history’ in a bizarre case of no other sort.

Theft and evident corruption. Countless cruel and long term destructive and debilitating illegal attacks carried out against me by these corrupt officials in their publicly funded positions of trust.

The evidence again, black and white, as it was over two years ago before [Stokoe apologised when Operation Wolverine admitted liability](#) following a complaint to 101 where the target was forced to battle with the thuggish head of staff there who responded to the complaint Mr Moores raised after

the Officers blatant and corrupt manoeuvring saw the theft of two motor vehicles with market value at approx. £18,000.00 that belonged to him and where he'd been repeatedly insulted by the officer handling the return call from Operation Wolverine after making the complaint, being told on numerous occasions during the phone call back in 2021;

“what do you want your cars back for? You're banned anyway?”

Bandits.

Mr Moores has had years and years stolen from him and made him very ill.
He has just about survived the multiple attempts at ‘*murdering him*’ in as many different ways as *these people* can muster.

Mr Moores's future remains uncertain. His past has been deleted and his present is an ongoing war of attrition in the most disproportionate and unjust circumstances.

It is a daily struggle for survival at this point having been robbed and harassed to the point of illness and ruin over such an extended period of time.

Before bumping into these people, Mr Moores was getting somewhere with his life.

Mr Moores had a future.

He feels it is not safe for him where he lives.

He absolutely must move away from this area in order to ensure his safety and his recovery.

The Officers involved here have realised what they set out to achieve.

They have ruined their targets life.

They have top to bottom ran amok and abused the police powers entrusted in them and weaponized them for their own personal agendas.

Mr Moores has been on the receiving end of something very dark for a very long time and feels it is beyond repair.

He feels there is mortal danger for him where he lives and that this situation inst going to stop, because it has gone on now for far too long and its getting worse.

After everything that has happened, it has rendered Mr Moores completely exposed having been subject to abuse witnessed by countless officials who now feel empowered to do the same.

It is an issue of the gravest concern.

Many years of indecent torment and savage hidden agendas have been directed towards Mr Moores by this mob of corrupt officials who have seemingly turned their job into a bloodsport and personal form of entertainment that leaves him with little doubt there will be no end to this.

Mr Moores

BUSINESS AND SENSE OF SAFETY AT HOME DESTROYED

NAME AND REPUTATION DESTROYED

FINANCIAL SECURITY DESTROYED.

FAITH IN POLICING DESTROYED.
