

07/06/24
Dear ,

Thank you for your letter 05-06-24.

Your time is very much appreciated.

I would be grateful if you could consider the following points and revert back to me.

".. From the information I have, your complaint has not been right through the Authority's complaints procedure.

The Authority has informed us that the complaint is currently being considered. There have been some delays, but the issue is now proceeding, and you should receive a response soon.

Although the Authority is dealing with your complaint under its procedures, this process is not yet complete. So, I will tell the Authority today that, although we have received your complaint, at present it is too early for us to consider it. I will ask the Authority to ensure any time scales in the complaints procedure are met and that it keeps you informed about what is happening."

TIMELINE::

2022

1.) *Raised complaint with IOPC* in September 2022 – this was forwarded to GMP.

2023

2.) *GMP PSB final response* was received in February 2023.

3.) GMP PSB decision was then raised for review with the GMCA in March 2023.

4.) *Final Response received from GMCA* July 2023.

2024

5.) *Referred myself back to IOPC* following critical developments approx. Feb 2024.

6.) *Response received from the IOPC.*

7.) *No response from 101.*

8.) *No response from GMP PSB.*

CONCLUSION: :

A [final response was received from the GMCA](#) nearly 12 months ago 26th July 2023.

In the response from Ms Green on behalf of the GMCA, it said:

“You may be disappointed with the outcome of your review, which is not upheld.”

~ and ~

“If you wish to challenge the outcome of the review of your complaint, you may seek a judicial review. The Courts and Tribunals Judiciary website explains what judicial review is, and the circumstances where it may be considered.”

This issue was also raised with the IOPC again in March this year (2024) who forwarded me back to the GMCA. The GMCA/PCC Ms K Green emailed me again with a copy of her previous correspondence received back in June 2023 when I raised issue with the review immediately after it was published by her, which said;

“if I wish to challenge the decision, I can apply for a Judicial Review”

A Judicial Review is not the appropriate action here. This owing to the same reasons given to the IOPC in March. The problem is not with the actual decision as such – at this stage, the issue lies with the decision maker themselves, in this case PCC Ms K Green and the understanding of a connection to the Officers the complaint concerned.

I am also concerned about the strong possibility of Ms Green having connections within the Judiciary, this given her previous long term employed roles in the legal system and as made quite clear to me through some of the issues I faced with the Legal Ombudsman in circumstances which existentially suggest Ms Greens involvement.

Having come back to the IOPC over 6 months after coming into possession of damning evidence that supports claims of serious misconduct in the complaints and review process, the IOPC have instead interpreted my latest report as an [abuse of process](#), stating that reporting the same crime/complaint twice is not allowed.

I feel I have exhausted all possible routes in the matter with PCC Ms K Green;

IOPC	-	SEP 22
GMP-PSB	-	FEB 23
GMCA	-	JUL 23
JUDICIARY	—	xxx xx
IOPC (2nd)	-	MAY 24

QUESTIONS : :

1.) Who am I waiting for?

2.) Could you please clarify who 'The Authority' is?

3.) Why has no one contacted me since Jul 2023 if the complaint is still being considered?

4.) I complained about an organisation and some of its members – why has their word been taken without investigating or asking the complainant any questions before closing the case?

5-info.) Currently, Detective Inspector Sheil at Manchester Town Hall, where Ms K Green is stationed, has my personal mobile phone along with numerous other pieces of computer hardware that was taken in one of the two warrantless raids that DI Sheil actioned in February and March this year, action firmly understood to be taken through DI Sheils collusion with PCC K Green..

As it stands, there is a ranking Officer firmly understood to be acting in collusion with the Police Crime Commissioner stationed in the same building as the ranking officer. It is completely clear that there is a conflict of interest here.

I was bailed, for 3 months when I was arrested in February for harassment after walking into a Police Station once and saying “ask me anything you want, I’ve got nothing to hide”. The bail was set for my birthday 21st May.

I was then bailed again, in March where the bail date was set the same, 21st May. I was then contacted by one of the Police Constables stationed at The Manchester Town Hall extension, the day before my Birthday where id been keen to see a conclusion on this matter, where I was then told I don't need to turn in for bail tomorrow –

The bail has been extended another three months.

There is a conflict of interest here, especially given I have been charged for threatening DI Sheil. Why is DI Sheil, based at the Manchester Town Hall Extension still handling this case given 2x separate and clear conflicts of interest one of which concerns connection to the PCC?

5.) Could you possible tell me, who I complain to in this situation?

Hope I don't come across rude, the case concerns an issue central to the very core of my identity and standing including many years of my labour. It's a very important issue to me.

I think its right to let you know that an Application for Damages was been submitted to the Civil Courts in Manchester in early April this year (2024). Believe it proper to make you aware as I understand the potential for friction if different decisions are reached.

I've been documenting everything since the issue once again became critical in February this year because I'm extremely worried the people behind this issue will send people to come bursting through my door any minute and I would not put it past them to fit me up. So please don't take offence to me adding this to the evidence cache its simply procedure at this stage.

*Thanks again for coming back to me and **Thank you** for your patience and understanding.*

Kind Regards,
Mr A Moores
